

## Student Transfer Report

Fall 2016-Fall 2020 Analysis

FCC regularly collects data from the National Student Clearinghouse on students who have transferred to higher education institutions nationwide. Examination across semesters for the period of fall 2016 through fall 2020 showed that **6,570** students transferred to either a Maryland (approximately 64%) or an out-of-state institution (approximately 36%). Specifically, 56% (n=3,661) transferred to Maryland four-year institutions, 8% (n = 527) transferred to Maryland two-year institutions, 34% (n =2,230) transferred to out-of-state four-year institutions, and approximately 2% (n =152) transferred to out-of-state two-year institutions (see Figure 1). Approximately, 89% of FCC’s transfer students moved on to a four-year educational institution.

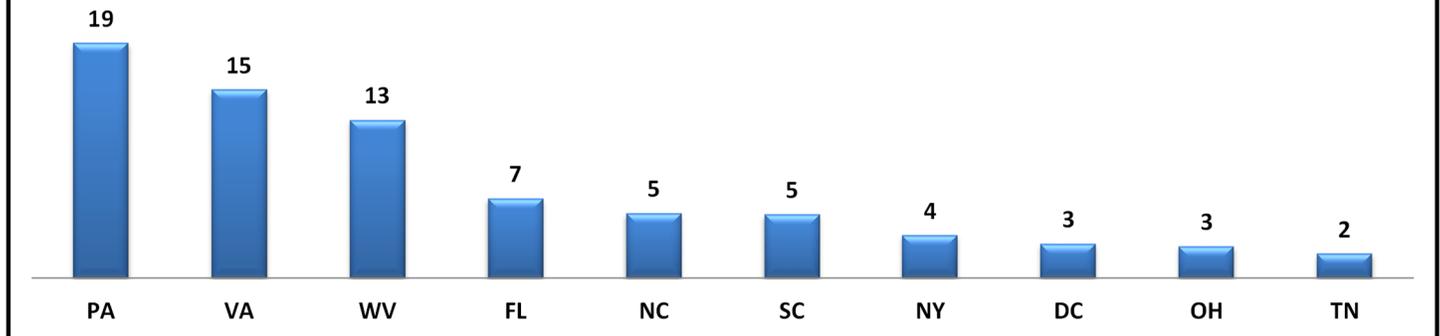

**Transfers to Maryland Institutions:** Approximately 64% (n= 4,188) of FCC’s students transferred to Maryland institutions during this period. The following table shows the number of students who transferred to two and four-year institutions (See Table 1). **University of MD College Park, Towson University, University of MD Global Campus (UMUC), Hood College, and University of Maryland Baltimore County** attracted the most FCC transfer students.

**Transfers to Out-of-State Institutions:** Approximately 36% (N= 2,382) of students transferred to out-of-state institutions (see F2). During this period, the top ten states to which these students transferred were Pennsylvania (19%, N=457), Virginia (15%, N=366),

West Virginia (13%, N=308), Florida (7%, N=154), North Carolina (5%, N=127), South Carolina (5%, N=125), New York (4%, N=84), District of Columbia (3%, N=67), Ohio (3%, N=63), and Tennessee (2%, N=48).

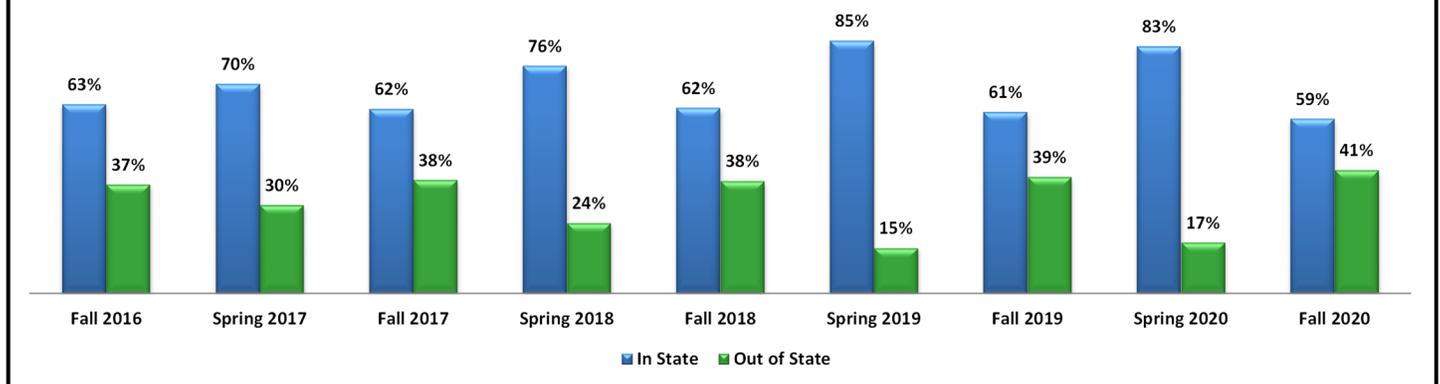

## F2. Top 10 Out-of-State Transfer Destinations for FCC Students F2016-F2020

Other transfer destinations made up approximately 25% of Out-of-State Transfer Destinations (n=2,382).

**Transfer Trend by Semester:** F3& T2 show FCC’s transfer trends by semester from fall 2015 to fall 2019. FCC students tend to transfer and enroll in Maryland institutions during the fall semesters. Out-of-State transfers decrease during the spring. In fall semesters, an average of 876 FCC students transferred to new institutions. During the spring, an average of 300 FCC students transferred.

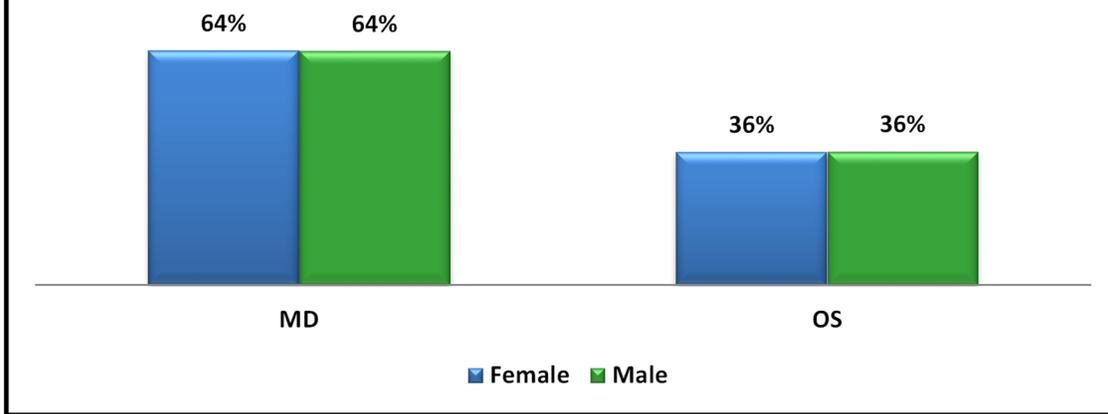

## F3. FCC Transfer Pattern Fall 2016-Fall 2020

## T2. FCC Transfer Rate by Semester F2016-F2020

	MD Institutions		Out-of-State Institutions		Total Transferred
	# Students	Total %	# Students	Total %	
Fall 2016	687	63%	396	37%	1083
Spring 2017	123	70%	52	30%	175

Fall 2020	648	59%	457	41%	1105

### F4. Transfer to MD, Out-of-State Institutions by Gender

**Gender:** There were 3,855 (59%) female and 2,715 (41%) male students who transferred to Maryland and out-of-state institutions from fall 2016 to fall 2020. The rate of transfer and enrollment at FCC by gender is similar. Among females, 64% (n = 2,459) transferred to Maryland institutions and 36% (n = 1,396) transferred to out-of-state institutions. Among males, 64% (n = 1,729) transferred to Maryland institutions and 36% (n = 986) transferred to out-of-state institutions (see F4).

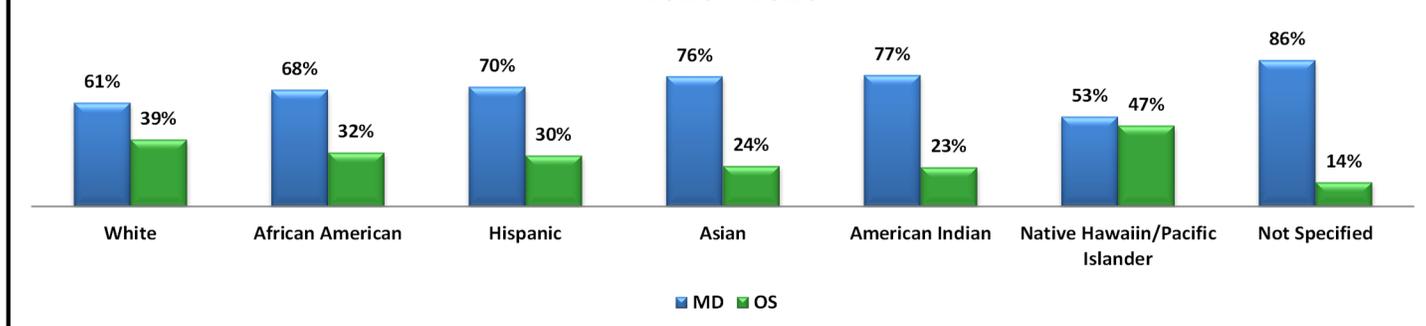

### F5. Ethnic Transfer Percentage Compared to Ethnic Enrollment Percentage Fall 2016 to Fall 2020

**\*\*Note:** Decimals were not rounded up for this figure to help compare FCC Race/Ethnicity percentage.

**Race/Ethnicity:** Examination of transfer students by ethnicity showed that most were Caucasian (71%, n = 4,635) followed by African Americans (12%, n = 803), Hispanics (9%, n = 598), Asians (7%, n = 475), Native Americans (0.4%, n = 26), Other/Not Specified (0.2%, n = 14), and Hawaiian/Pacific Islander (0.3%, n=19). White students make up a greater percentage of transfer students than they do in overall FCC enrollment.

### F6. Transfers to MD/Out-of-State Institutions by Race/Ethnicity F2016-F2020

**Transfer to Institutions based on Race/Ethnicity:** F6 shows the percentage of each ethnic group that transferred to Maryland or Out-of-State Institutions from fall 2016 to fall 2020. The data shows that for each ethnic group, a consistently larger percent of students transferred to MD institutions than to out-of-state institutions. However, the proportion of out-of-state transfer students seems to fluctuate overtime especially for minority groups with small group size.
