Animal Studies

VETERINARY ASSISTANT

This comprehensive training program, consisting of 5 noncredit courses and a supervised clinical practicum, totals 150 hours, and provides the basic knowledge and skills needed for an entry-level position in a veterinary hospital.

Beginning in Fall 2016 and ending in April 2017, this program requires students to successfully complete a series of classes in order to receive the FCC Certificate of Completion.

Clinical Practicum: During this portion of the program, students gain hands-on experience in local veterinary hospitals. As the Veterinary Assistant Training also uses live animals for teaching purposes in lab settings, Frederick Community College takes all necessary safety precautions when students interact with live animals; however, students must be aware that live animals by nature may not be absolutely controlled. Frederick Community College does not provide medical insurance for injuries.

Prerequisites: Prior to registering for Veterinary Assistant courses, students are required to either validate previous successful college courses (C or above in reading and math) or test into MAB2 and ENS2. To validate previous successful college in reading and math, attach a copy of your transcripts to the course registration form. Students must have taken the Reading and Math Assessment prior to taking previous credit or noncredit courses, please indicate this on the course registration form. Students must be a minimum of 18 years of age and have a high school diploma or GED*. The Veterinary Assistant training program is eligible for FCC's payment plan.

If you have any questions or need additional information, please contact Adrienne Summers, program manager, at 240.629.7987.

Veterinary Assistant I: Introduction to Veterinary Assisting

In this introductory course to veterinary assisting, students will discover the history of veterinary medicine and learn about the roles of veterinary team members. Basic laws and ethics relating to veterinary medicine and safety regulations in the workplace will be reviewed. Students will learn about proper front office management and medical documentation while practicing client relation and customer service skills. This course will also introduce students to medical terminology and how to obtain a patient history while utilizing skills for initial patient assessment.

Note: This course is not available for online registration.

INSTRUCTOR: CE Instructor
5684 TTh 6pm – 9pm 8/23–9/1 Monroe Center/MC152

Veterinary Assistant II: Animal Systems, Restraint and Husbandry

The second course in the veterinary assisting series, this course will cover anatomy and physiology of the canine and feline species. Students will become familiar with interpreting behavioral cues from both dogs and cats to learn and demonstrate safe handling and restraint of the patient during the veterinary clinic visit. Animal husbandry and nutritional requirements for various species will be reviewed to understand how both relate to diseases that are commonly observed.

Note: This course is not available for online registration.

INSTRUCTOR: CE Instructor
5685 TTh 6pm – 9pm 9/6–10/13 Monroe Center/MC152

Veterinary Assistant III: Diagnostics and Pharmacy

In the third course of the veterinary assisting series, students will learn the importance and use of common diagnostic tests and imaging techniques in clinical veterinary practice. Topics will include radiation safety, both film and digital x-rays, CT, MRI and ultrasound. The course will also include the basics of pharmacology, calculating drug doses and the use of various medications as they relate to body systems. Students will become familiar with the regulations pertaining to prescriptions and the dispensing of medication.

Note: This course is not available for online registration.

INSTRUCTOR: CE Instructor
5686 TTh 6pm – 9pm 10/25–12/8* Monroe Center/MC152
*No class 11/22, 11/24.

Veterinary Assistant IV: Anesthesia, Surgery and Emergency

The fourth course in the veterinary assisting series, this class will cover the role of the veterinary assistant in anesthesia, surgery and emergency care. Learn about aseptic technique and how to apply it to the preparation of surgical instruments, the surgical suite and the surgical team. Students will learn about pre- and post-operative care of the patient, surgical terminology and suture removal. Discover the importance of quality nursing care and how to apply it to the principles of fluid therapy, medication administration and wound care. Triage of emergencies and critical patients will be discussed.

Note: This course is not available for online registration.

INSTRUCTOR: CE Instructor
5687 TTh 6pm – 9pm 1/3–1/19 Monroe Center

Veterinary Assistant Clinical

In the fifth course of the Veterinary Assistant series, students will gain experience in a clinical setting while through a clinical rotation at local veterinary clinics, humane societies and animal shelters. Each student will complete 50 hours of clinical experience. This course is a clinical class and subject to clinic hours.

Note: This course is not available for online registration.

INSTRUCTOR: CE Instructor
5688 M – S 8am – 9pm 1/24–4/22 TBA

Payment Plans Available

Take Advantage of FCC's payment plan when you register for a series of required courses in a program. This allows you to divide your total cost into automatic monthly payments from either a checking/savings account or major credit card. The plan is interest free with a non-refundable enrollment fee of $25. Ask about the payment plan when you register at the CE Registration Center (FCC Conference Center “E” Building), call 301.624.2888 or email CErequest@frederick.edu for payment plan inquiries.
**Careers & Business**

**ACCOUNTING, BOOKKEEPING & FINANCE**

**NEW! QuickBooks Levels I & II**

Get the full picture of your business performance and discover the new tools available in QuickBooks 2015. QuickBooks is the premier accounting software package for small to mid-sized businesses. Take charge of your business or develop your skills for the workplace. This course offers hands-on instruction from experienced CPAs and EAs. Share real-world experiences in class discussions. You will learn how to set up a company file, work with customers and vendors, use basic banking tasks, track physical inventory, prepare balance sheets and accounts, process payroll, provide estimates and time tracking and generate custom reports and forms. Prerequisites: Basic computer skills and file management as well as some familiarity with accounting concepts.

**Note:** This course requires two textbooks.

**NEW! QuickBooks Certification Exam Prep**

Complete your instruction in QuickBooks and prepare for the QuickBooks certification exam. This course provides an in-depth review of the payroll processing cycle using QuickBooks software, introduces the accounting cycle and use of classes, covers reporting, adjusting entries and closing the books, and finishes with exam prep. This course is designed for business owners wanting to expand their understanding of QuickBooks and accounting practices and others seeking employment in accounting and/or preparing for QuickBooks certification. This course along with QuickBooks Level I & II meet the objectives for the Intuit QuickBooks Certified User (QBCU) exam offered through Certiport. Taught by an experienced EA and certified ProAdvisor with QuickBooks you will receive experienced exam prep advice along with expert instruction. Prerequisite: QuickBooks Level I & II or equivalent experience.

**Note:** eBook and study materials included in course price.

**Introduction to QuickBooks 2014**

Learn to manage the financial aspects of your small business quickly and efficiently with this powerful accounting software program. QuickBooks is designed especially for the small to midsized business owner who enjoys Quicken’s ease of use but prefers a more traditional approach to accounting. You will gain hands-on experience as you learn how this well-designed accounting program can make it a snap to set up a chart of accounts; reconcile your checking account; create and print invoices, receipts, and statements; track your payables, inventory, and receivables; create estimates; and generate reports. Whether you’re new to QuickBooks or have already used earlier versions of this accounting software program, this course will empower you to take control of the financial accounting for your business.

**Intermediate QuickBooks 2014**

Learning how to use QuickBooks to its full potential goes far beyond learning the basic features of the program. Even many experienced users struggle when applying certain business situations to QuickBooks. In this course, go beyond the basic introductory concepts, and master many of the more advanced features and applications. You will learn how to manage multiple company files and how to export and import list data from one file to the next. If your business handles inventory, you will learn how to enter price levels and track discounts and credits. You will even learn how to enter and track mileage for any vehicles that you use in your business. This course also covers many other common topics that small business owners encounter. You will learn how to create customer statements and assess finance charges on overdue balances, and write-off these past due balances when it appears that the customer is not going to pay. This course is designed for those QuickBooks users who have a good grasp on the basics or have successfully completed the Introduction to QuickBooks course. Whether you are a small business owner, bookkeeper, or accountant needing a QuickBooks refresher, after taking this course, you will feel more confident and secure in accounting for your business.

**Performing Payroll in QuickBooks 2014**

Is the thought of preparing payroll daunting? Whether you have one employee or 20, the federal and state requirements are often the same! Using the payroll feature in QuickBooks 2014, you can master efficient techniques for creating paychecks, paying taxes, and generating forms and reports quickly and easily. You will start by learning how to prepare for the payroll process by finding the information you need on the Internal Revenue Service website, from the details of complying with withholding requirements for taxes to the process for applying for an employer identification number. Then you will review all aspects of how to set up and maintain payroll information for your employees in QuickBooks. Once you’ve mastered the basics, you will gain troubleshooting tips and solutions to help you solve common problems and mistakes to simplify the whole payroll process. By the end of the course, you will be ready to process payroll in QuickBooks and solve many of the problems that can pop up along the way.

Intermediate QuickBooks 2013

Learning how to use QuickBooks to its full potential goes far beyond learning the basic features of the program. Even many experienced QuickBooks users often struggle when applying certain business situations to QuickBooks. In this course, you will go beyond the basic introductory concepts and learn how to utilize many of the more advanced features and applications. You will learn how to manage multiple company files and how to export and import list data from one file to the next. If your business handles inventory, you will learn how to enter price levels and track discounts and credits. You will even learn how to enter and track mileage that you incur on any vehicles that you use in your business. This course also covers many other common topics that small business owners encounter. You will learn how to create customer statements, assess finance charges on overdue balances, and write off these past due balances when it appears that the customer is not going to pay. This course is designed for those QuickBooks users who already feel that they have a good grasp on the basics or have successfully completed the Introduction to QuickBooks course. Whether you are a small business owner, bookkeeper, or accountant needing a QuickBooks refresher, after taking this course, you will feel more confident and secure in accounting for your business.

Fundamentals of Supervision and Management
If you have recently been promoted to a supervisory or management position or want to learn how to become a more effective manager, this course will help you master the basics of business by learning the language of management. You will learn how to make a successful transition from employee to manager and you will learn how to manage your time so that you can deal with the constant demands of a managerial job. You will learn the skills required to delegate responsibility and motivate your employees. A large part of a manager’s job involves getting things done through other people, and this course will help you understand how to influence and direct other people’s performance. Finally, you will learn how to solve problems and resolve conflicts so you can accomplish your job more effectively. This course is a good choice for those looking for project management experience and those aspiring to obtain a PMI credential. It’s also an excellent choice for existing PMI credential holders looking for an approved activity for PMI’s continuing certification PDUs. At the end of this course, you will receive a certificate indicating your completion of Project Management Institute (PMI) PDUs equal to the number of hours of this course.

A to Z Grant Writing
A to Z Grant Writing is an invigorating and informative course that will equip you with the skills and tools you need to enter the exciting field of grant writing! You will learn how to raise needed funds by discovering how and where to look for potential funders who are a good match for your organization. You will also learn how to network and develop true partnerships with a variety of funders, how to organize a successful grant writing campaign, and how to put together a complete proposal package. This course speaks mainly to nonprofit organizations, schools, religious institutions, and municipalities seeking grants from foundation, corporate, government, and individual donors. It’s also an excellent primer for individuals wishing to become grant writing consultants or community grant writing volunteers. Many of the course elements also easily translate to the for-profit field and to individual artists, and material specifically designed for businesses and individuals is included. No matter who you are or what level of experience you have, you will find the A to Z of writing and submitting successful proposals here! Course Updated July 2013

Advanced Grant Proposal Writing
Learn how to research and write winning proposals that get funded. You will become proficient in the proposal format used by the vast majority of public foundations. Learn what to do—and, more importantly what not to do—on your cover sheet, narrative, background page, and your stakeholder and third-party evaluation plan. Gain a full understanding of the criteria funders use to determine whether your grant proposal gets funded or rejected. You will become expert at ferreting out corporate, foundation, and government grantmakers, and you will know how to tailor your responses to information found in the peer review criteria. Discover a number of significant finishing touches that can give your project the edge over others. Finally, learn about the importance of obtaining community and political support before submitting a proposal to any government agency.

PROJECT MANAGEMENT

Project Management Fundamentals
There are more projects occurring today than at any time in history. Organizations initiate projects to create new computer applications, erect bridges and buildings, improve processes, develop new products, and reorganize company operations. Unfortunately, most organizations do not manage projects well, creating an unprecedented demand for project management practitioners. If you're organized, perceptive, detail-oriented, and an excellent communicator, you just might have what it takes to succeed in the fast-growing field of project management. In this six-week course, an experienced Project Management Professional will help you master the essentials of project management. You will learn how to plan, implement, control and close any type of project. You will develop all sections of a project plan and become comfortable with the project management body of knowledge. If you're new to project management, this course will provide you with the essential information you will need to prepare for and complete your first project. If you're an experienced project manager, this course will make you more valuable to your employer by increasing your skills and competencies. This course and its follow up (Project Management Applications) include essential information to help you prepare for the Project Management Professional (PMP®) and the Certified Associate in Project Management (CAPM®) exams offered by the Project Management Institute (PMI®). Certification Magazine recently identified PMP® Certification as "the highest-paying certification" of the year.

Project Management Applications
A successful project begins with process definition, data collection, and the scoping of project requirements. Every project ends with a motivated project team able to accomplish objectives on time and within budget. Winning projects rely on accurate cost and time estimates, identification of the critical path, and use of tracking and control tools. You will become proficient at recruiting project team members and empowering them to succeed. You will understand the stages of team development, and you will gain skills in developing and motivating team leaders. You will learn how to understand and relate to an organizational culture and the differing characteristics of its work groups. You will also learn about project software, statistics, change management, processes, and estimating. And you will gain valuable experience with project planning, control and data analysis tools. This course includes essential information to help you prepare for the Project Management Professional (PMP®) and the Certified Associate in Project Management (CAPM®) exams offered by the Project Management Institute (PMI®). Certification Magazine recently identified PMP® Certification as "the highest-paying certification" of the year.

PROFESSIONAL DEVELOPMENT

NEW! Certificate in Frontline Leadership

The workplace is changing and those that aspire to leadership and management need to continually learn new skills or hone existing skills to keep pace. This program is tailored to meet the growing need for frontline leaders by developing emerging talent into leaders on the employers’ frontline across all industry sectors. Frontline managers oversee a company’s primary production activities and are critical to business success. They have responsibility for profit and loss, and the motivation of employees to top performance. Ideal candidates for this program are employees who may not be in a leadership or management role, but demonstrate inherent traits that organizations desire in leaders and managers. It is also ideal for newly promoted leaders and managers that need to further refine their skills.

The certificate is comprised of five modules. Maximizing Supervisory Potential & Building Trust Under Pressure, Problem Solving Results: Solutions, Innovations, Working Through Emotions & Conflict, Needs Based Coaching, and Managing for the Performance of Others. All sessions begin with the opportunity to share experiences, ask questions and process answers prior to diving into the next session. This workshop uses proven curriculum from our partner HDI Global (previously Achieve Global) and is taught by certified instructors. Courses may be taken individually or as a series at a discounted price.

Note: Participant materials are included in course price. A payment plan is available for this course.

INSTRUCTOR: Tammy Feaster / Robin Gaskill

MGT372 | 51 hours | $1,199 ($499 tuition + $700 fees)

*No class 10/10.

NEW! Maximizing Your Supervisory Potential

Supervisors frequently find themselves performing an awkward and uncomfortable organizational balancing act juggling multiple and competing elements of their job responsibilities. In this workshop, participants will explore the three critical hallmarks of supervisory success: personal credibility, work group commitment, and management support. You will learn the secrets of delegation success as well as thorough planning, clear communication, and effective follow-through. Participants will learn to apply basic leadership skills and to build trust under pressure. Become the successful manager or leader you want to be! This workshop uses proven curriculum from our partner HDI Global (previously Achieve Global) and is taught by certified instructors.

Note: Participant materials are included in course price.

INSTRUCTOR: Tammy Feaster / Robin Gaskill

MGT374 | 9 hours | $299 ($120 tuition + $179 fees)

MW 6pm – 9pm 10/3–10/12* E124A
*No class 10/10.

NEW! Problem Solving Results: Solutions, Innovations and Innovations

Problems show up in every size and shape, often when you least expect it! Effective identification of and implementation of solutions is critical to a productive, collaborative, and effective work environment. This workshop provides participants with the skills and strategies required to identify appropriate solutions to problems and the energy to implement them. Topics include a dynamic five step process for problem solving, exploration of tools that can enhance success, delineation of decision making procedures and criteria, and demonstrates strategies to aid in execution and build and sustain momentum of those involved in change. This workshop uses proven curriculum from our partner HDI Global (previously Achieve Global) and is taught by certified instructors.

Note: Participant materials are included in course price.

INSTRUCTOR: Tammy Feaster / Robin Gaskill

MW 6pm – 9pm 10/17–10/26 E124A

NEW! Working through Emotions and Conflicts

The workplace demands collaboration and innovation demands diversity, both of which can lead to conflict. Unproductive emotions and conflict in the workplace are two major interpersonal influences that deplete the energy required to meet goals. This workshop teaches participants important, effective ways to manage emotions and conflict. Discover skills for managing emotions and preventing runaway emotions so that you are able to remain productive and focused on organizational goals. Examine a model for the effective management of conflict which will result in increased collaboration, innovation, problem solving and productivity. You will come away from this workshop with confidence and skills to address those most vexing and scary emotional issues. This workshop uses proven curriculum from our partner HDI Global (previously Achieve Global) and is taught by certified instructors.

Note: Participant materials are included in course price.

INSTRUCTOR: Tammy Feaster / Robin Gaskill

MGT377 | 6 hours | $199 ($80 tuition + $119 fees)

MW 6pm – 9pm 10/31–11/2 L112 (H256 on 11/2)

NEW! Needs Based Coaching

Managers that practice needs-based coaching build sustainable motivation in their employees and teams by creating an environment where intrinsic needs are met. In this needs-based coaching training you will 1) look at motivation in a different way and learn to create an environment that unleashes superior performance, 2) learn how to affirm positive results in a way that highlights competence, strengthens relationships and encourages motivation in others, 3) learn a collaborative approach to developing capability in others that pairs the motivational needs of employees with the results producing needs of the organization, and 4) learn to give and receive feedback in a way that builds motivation and delivers organizational results. Application of these skills will transform your team and yield the results you desire. This workshop uses proven curriculum from our partner HDI Global (previously Achieve Global) and is taught by certified instructors.

Note: Participant materials are included in course price.

INSTRUCTOR: Tammy Feaster / Robin Gaskill

### CAREER & PROFESSIONAL CERTIFICATION PREP

**SHRM-CP and SHRM-SCP Certification Exam Prep**

Business leadership has changed over recent decades. We now live and work in a global economy, in which geographic borders are virtually non-existent, and innovation, agility and strategy are critical success factors. The HR profession operates at the core of this global economy, ensuring the alignment of organizational strategy with a high-performing workforce. The new SHRM credentials, Senior Human Resources Manager - Certified Professional (SHRM-CP) and Senior Human Resources Manager - Senior Certified Professional (SHRM-SCP), address these new roles.

The SHRM-CP and SHRM-SCP encourage HR professionals to acquire the behavioral competencies and knowledge they'll need to effectively perform their jobs and achieve career success. This certification program was built with employers in mind. It will undoubtedly help set the global standard for excellence in HR and aims to grow certification throughout the HR profession. Join fellow HR practitioners to prepare and practice for your certification exam in this 12-week course. You will learn test-taking strategies, as well as important concepts that are essential for mastery of the exam’s body of competency and knowledge. This course replaces the PHR/SPHR prep course that was previously offered at FCC. Please go to http://www.shrmcertification.org for exam information and prerequisites. This course is eligible for FCC’s payment plan. Please contact the CEWD Registration Office at 301.624.2888. Course material included.

**Note:** This is an online class and all classwork will be completed online. Previous HR experience is required for this class. Please visit the www.SHRM.org website for additional information and clarification.

**CPD130 | 36 hours | $1,169 ($489 tuition + $680 fees)**

**INSTRUCTOR:** Amanda Haddaway

**5797 | 12am – 11:59pm | 9/6–11/29**

**Praxis Core Preparation - Semi-Private Instruction**

Are you a prospective teacher who needs to pass the Praxis Core Exam? Prepare for the new Praxis Core Exam. Gain the benefits of an individualized, tailored, and semi-private preparation course. Improve test taking skills while reviewing reading, writing and math requirements of the test.

**CPD150 | 8 hours | $154 ($119 tuition + $35 fees)**

**INSTRUCTOR:** Anamaria Prensky

**5886 | TTh 4pm – 6pm | 10/4–10/13 | L112**

**Math Praxis Preparation - Semi-Private Instruction**

Participants will develop the skills needed for the Praxis test as we review, master and prepare for the Math Core Praxis Assessment. In the course students will master the topics of number operations, negative numbers, exponents, square roots, order of operations, decimals, fractions, percentages, algebra, geometry, systems of measurement, probability and statistics. Students will practice working timed math problems by hand, quickly and correctly.

**CPD151 | 8 hours | $154 ($119 tuition + $35 fees)**

**5957 | n/a | 9/1–12/14 | TBA**

**Praxis Core Preparation**

Are you a prospective teacher who needs to pass the Praxis Core Exam? Have you already attempted the Praxis Core and not been successful? If you answered yes to either of these questions, then this course is for you! You will develop all the skills you need for the test as we review and prepare for everything it includes. You will get familiar with the different types of questions that appear on the reading and writing tests. You will master the many areas of math that you will be tested on: number operations, negative numbers, exponents, square roots, order of operations, decimals, fractions, percentages, algebra, geometry, systems of measurement, and probability and statistics.

To prepare for the two essays, participants will discuss what constitutes high scoring essays, and go through the process of writing each essay in the amount of time allotted. You will learn useful test-taking strategies and get plenty of practice questions that are similar to what you will find on the exam. You will also have the opportunity to take a full-length practice test in each subject area. Using clear explanations, numerous examples, graphics, animation, and videos, this course will not only prepare you for the Praxis Core, but do so in a way that’s fun and interesting. After completing this course, you will be totally ready to pass the Praxis Core Exam! Course revised May 2015

Payment Plans Available

Take Advantage of FCC’s payment plan when you register for a series of required courses in a program. This allows you to divide your total cost into automatic monthly payments from either a checking/savings account or major credit card. The plan is interest free with a non-refundable enrollment fee of $25. Ask about the payment plan when you register at the CE Registration Center (FCC Conference Center “E” Building), call 301.624.2888 or email CERequest@frederick.edu for payment plan inquiries.
Activities I For Children
Learn the methods and proper use of materials in presenting creative learning experiences to young children in the areas of language, creative dramas, art, music, movement, math, science, emergent literacy and outdoor activities. This course meets the Maryland State Department of Education Teaching Methodology requirements for an initial certificate in Early Childhood Education. This course is also 45 hours of the 90 hours of Child Care Training required for Senior Staff. Also offered for credit as ECD104. See the credit schedule at frederick.edu for more information.

Note: This course is not available for online registration. Registrations will be accepted at the CEWD Registration Office located in the Conference Center, Building E, Room E-113. Prerequisites: EN52 or ESL99. A textbook is required for this class. One or more sections of this class may require online coursework outside of class meeting times. For more information, contact Adrienne Summers at 240.629.7987.

Child Growth and Development
This certification course satisfies the child development half of the MSDE requirement of 90 hours for child care teachers and directors. Gain a broad overview of major concepts, theories and research related to the social, emotional, cognitive, and physical development of the child from birth through age 12. This course and a 45-hour course in age-appropriate curriculum (preschool infant-toddler, or school-age) are required to complete the 90-hour certification for child care. Aligns with MD Staff Credential (proposed) levels 2-4. You must successfully complete all course assignments to receive a course certificate. Purchase textbook from FCC Bookstore prior to class. This class is held in partnership with Howard Community College.

Note: A textbook is required for this class.

School Age Activities
Examines developmentally appropriate principles, materials and methods used with school-age children ages 6 to 12. Specific consideration given to planning activities for school-age child care. Students plan and present lessons in the areas of physical, intellectual and social development. This course meets the State requirement's approved training for Infant/Toddler Senior Staff qualification. (Also offered for credit as ECD106)

Note: This course is not available for online registration. Registrations will be accepted at the CEWD Registration Office located in the Conference Center, Building E, Room E-113. Prerequisites: EN52 or ESL99. A textbook is required for this class. For more information, contact Adrienne at 240.629.7987.

CHILD CARE PROFESSIONAL DEVELOPMENT

Communication Skills for Child Care Professionals
This course is designed for child care professionals as an introduction to the basic concepts of developing strong communication skills when working in a child care center. Topics include: speaking, writing, interpersonal communication strategies, and critical reading techniques, with a focus on communication with parents and co-workers, and communication issues within a typical child care day.

Topics include: practice reading strategies to increase comprehension and retention; apply writing strategies to compose documents related to child care, including lesson plans, parent letters and child observation journals; demonstrate effective communication skills in the child care environment; and utilize a variety of tools to record and communicate critical child information, including behavior, accidents, daily routines, and schedules. This course is part of the Maryland State Department of Education-Office of Child Care-approved training program for child care professionals and is one of the “Continued Training Credit Hour” programs in Maryland Child Care Credentialing content areas required to acquire and/or maintain licensure or certification status. MSDE core of knowledge: Professionalism.

FALL 2016 • frederick.edu/QuickEnroll • 301.624.2888
Aquatic Pest Weed Management

Aquatic Weed Management is a course for pesticide applicators who manage aquatic weeds in the performance of their work. Its purpose is to prepare pest managers for certification in Aquatic Pest Control, Commercial Pesticide Applicator Category 5. Aquatic weeds are managed to protect property, human safety, and aquatic resources.

After certification, the course manual will serve as a resource for pest identification and management. Aquatic Pest Management does not cover all pests that occur in or near water. The topics are to explain the need for weed control and the environmental factors that regulate aquatic plant growth; determine weed control methods based on intended use of ponds and waterways; identify weed species and know what part of the littoral zone they occupy; and recognize sensitive areas and situations affecting pest management decisions. This course is approved from the Maryland Department of Agriculture.

Note: You may register and begin this class anytime between the first and last class dates. Please contact Adrienne Summers at asummers@frederick.edu or 240.629.7987 upon registering in order to gain access to the online class.

*No class 9/13, 9/15.

Keyboarding

If you want to learn touch-typing or improve your existing typing skills, this is the perfect course for you! In these lessons, you will use the Keyboarding Pro 5 program, a typing tutorial designed for personal computers, to learn how to touch-type - that is, to type text you read from a printed page or a computer screen without looking at your keyboard. Using Keyboarding Pro’s built-in word processor, you will learn how to create, edit, and save word processing documents. As you improve your typing speed and accuracy, you will use the word processor’s timed writing feature to continually hone your skills. You will even learn posture tips to minimize fatigue and help prevent carpal tunnel syndrome. With the skills you master here, you will become faster and more confident at the keyboard. By the end of the course, you will know how to touch-type the alphabetic, numeric, and symbol keys; create, save, and edit word processing documents; and successfully take a timed writing test during a job interview.

Introduction to Microsoft Outlook 2010
Are you overwhelmed by emails, meetings, and to-do lists? Harness the power of Microsoft Outlook 2010, and you will instantly enhance your efficiency and productivity. In this course, you will learn your way around the new ribbon-based interface and get up and running quickly. Then you will focus on the core skills you really need in order to work smarter and faster. First, you will learn how to manage the flood of emails you receive, creating folders and archives so you can always find what you need. Then you will discover how to keep track of your contacts and how to use Outlook’s Calendar and Alert features. You will also find out how to customize Outlook so it perfectly meets your needs, and you will discover how to automate your work with rules. As a bonus, you will get insider tips that will make you the Outlook guru in your office. For example, did you know that you can create, send, and receive email messages without ever touching the mouse? You will find out how, and learn lots of other tricks for getting the most out of Outlook’s versatile tools. Whether you’re new to Outlook or you've been using it for years, you’re sure to learn something useful in every lesson. In just a few weeks, you will be a skilled and confident user of this time-saving tool - and you will never have to worry about missing a meeting, losing an email, or forgetting an important task again!

Introduction to Microsoft Outlook 2013
Want to learn Microsoft Outlook 2013 quickly? Want to become a confident and productive user of this powerful program without having to memorize a lot of technical mumbo-jumbo? In this course, you will see what’s new in Outlook 2013 and get up and running with the most important aspects of the program, starting with mastering the new Windows 8 style look and feel. From there, you will quickly learn how to manage your email, calendar, and contacts, and how to streamline and automate your work with keyboard shortcuts, rules, Search Folders, and Quick Steps. The goal of this course is to teach you what you really need to know to be productive with Outlook 2013. That means you won’t waste your time on low-value aspects of Outlook. Instead, you will focus on the important things like sending, receiving, and managing your mail, and using tools such as the calendar, tasks, and to-dos so you can manage your schedule and get your work done. You will also learn about the redesigned Contacts section of Outlook (now called People). You will discover how Outlook can connect to your social networks, and discuss the pros and cons of making those connections. The course also shares secrets about how to get the most from Outlook. Introduction to Outlook 2013 dedicates an entire lesson to the instructor’s favorite Outlook tips and tricks. Whether you’re new to Outlook or you’ve been using it for years, you’re sure to learn something useful in every lesson.

Introduction to Microsoft Excel 2010
Do you work with numbers? Then you need to master Microsoft Excel 2010 - and this is the place to do it. Even “non-techie” beginners will find it easy to learn Excel in this fun, step-by-step online course. These lessons will teach you dozens of shortcuts and tricks for setting up fully formatted worksheets quickly and efficiently. You will also learn the secrets behind writing powerful mathematical formulas and discover how to use the function wizard to quickly and automatically calculate statistics, loan payments, future value, and more. In addition, you will get tips on sorting and analyzing data, designing custom charts and graphs, creating three-dimensional workbooks, building links between files, endowing your worksheets with decision-making capabilities, and automating frequently-repeated tasks with macros and buttons. This is not a tutorial, but an in-depth class where you will get training, help, and personal support from an experienced instructor as you’re learning Excel basics step-by-step. By the time you’re done, you will be using this vital Office 2010 tool like a pro.

Any proficient Microsoft Excel user will agree that this program is a very powerful analytical tool. Wouldn’t it be great to learn how to effectively use all the advanced Excel features? In this practical and information-packed course, you will see how to maximize this program’s functions and capabilities. You will see how to work with analytical tools provided by Excel add-ins and become skilled in using validation to protect the integrity of your worksheets from less experienced users. Impress your coworkers by learning how to add functional and eye-catching custom controls to any worksheet and how to use scenarios and data tables to quickly perform data analyses. You will discover advanced techniques for PivotTables, such as creating calculated fields and calculated items. Become adept at consolidating and importing external data, and master the art of conditional formatting to highlight duplicate entries and other common worksheet problems. Learn how Excel 2010 table tools take the complexity out of table creation and management. As you become proficient at nesting functions within other functions, you will be able to accomplish just about anything Microsoft Excel has to offer!

Introduction to Microsoft Excel 2013
Do you work with numbers? Then you need to master Microsoft Excel 2013 - and this is the place to do it. Even “non-techie” beginners will find it easy to learn Excel in this fun, step-by-step online course. These lessons will teach you dozens of shortcuts and tricks for setting up fully formatted worksheets quickly and efficiently. You will also learn the secrets behind writing powerful mathematical formulas and discover how to use the function wizard to quickly and automatically calculate statistics, loan payments, future value, and more. In addition, you will get tips on sorting and analyzing data, designing custom charts and graphs, creating three-dimensional workbooks, building links between files, endowing your worksheets with decision-making capabilities, and automating frequently-repeated tasks with macros and buttons. This informative course covers the new Quick Analysis, Flash Fill, and charting capabilities available in Excel 2013. This is not a tutorial, but an in-depth class where you will get training, help, and personal support from an experienced instructor as you’re learning Excel basics step-by-step. By the time you’re done, you will be using this vital Office 2013 application like a pro.

PROGRAMMING AND WEB DEVELOPMENT

NEW! Certificate in Web Development
This intensive foundational program in the design and development of mobile optimized websites is designed for those with little or no prior training or experience. The selected course work provides a broad based learning experience. Participants will gain hands on application in a variety of the most popular web programming languages. Each module contains a project that will be used to build up a student’s portfolio. At the end of the programs participants are able to design websites, write complete, functional computer programs accessing a SQL database.

NEW! Web Design and Development
Web Design and Development introduces you to core concepts of information technology fundamentals and ethics, proceeds with foundational concepts and approach to mobile optimized (responsive) web design, and finishes with hands on application as you learn how to program in Java, the most popular programming language for corporate and government software applications. You will also prepare for the Java SE8 certification exam. The first in a two-course certificate program, these courses are designed for individuals with little or no prior training or experience in web development. From here you will move on and broaden your programming skills and complete the certificate with Coding for the Web, where you will learn PHP & MySQL, C# & .NET and Python. Both certificate courses must be taken consecutively.

Note: Textbooks are included in course price. Exam voucher is not included in course price.

PRG138 | 72 hours | $1,405 ($1,000 tuition + $405 fees)

INSTRUCTOR: CE Instructor
5658 T – Th 6pm – 9pm  9/6–11/3*  E108
*No class 10/4, 10/5, and 10/6.
NEW! Coding for the Web

The second of the two course Certificate expands your exposure to and experience with web programming. You will learn how to program in three additional languages that provide broad exposure applicable to the vast majority of platforms and systems in use today. Included are: PHP & MySQL, open source programming used in non-Microsoft systems; C# & .NET, Microsoft’s alternative to Java and second most popular programming language for corporate and government software applications; and Python a powerful language that has risen to prominence and can be used for any programming task. At the end of the certificate program, you will be able to design and develop websites optimized for mobile devices and write complete, functioning applications in the most popular and widely used programming languages. Additionally, you walk away with a code portfolio which demonstrates proficiency gained throughout the certificate program. Prerequisite: Web Design and Development (PRG138).

Note: Textbooks are included in course price.

PRG139 | 72 hours | $1,294 ($999 tuition + $295 fees)

INSTRUCTOR: CE Instructor

NEW! Website in a Day with Wix

No coding required website builder Wix helps you create stunning, functional websites within a matter of hours. This is accomplished utilizing a simple, intuitive drag-and-drop interface. Additionally, Wix is very secure and does not require updating, patching, or modifying of any software. Wix offers an easy-to-use interface allowing those without coding experience to create personal and professional websites with blogs, galleries, slideshows, online stores, contact forms and more. You will learn how to set up a free trial account with Wix, choose from over 500 professional website templates, add pages, a blog page, photos, and photo galleries. You will also create a contact form, connect social media, and learn how to publish your site. With Wix’s built in support infrastructure you will have the confidence to tackle your next project on your own.

Note: Wix offers a free basic account which will be used in class. Requirements: Computer, web browser, and mouse proficiency.

INT153 | 6.5 hours | $199 fee

INSTRUCTOR: Jeannine Morber

5449 S 9am – 4pm 9/10 E108

NEW! Website in a Day with Weebly

Create an affordable, functional website without having to write code using Weebly’s user-friendly drag-and-drop website builder. With Weebly you will create multiple page mobile-ready websites, blogs, galleries, and ecommerce sites. Weebly also offers built in hosting and maintenance so there is no need to update software. You will learn how to set up a free trial account with Weebly, choose from Weebly’s mobile responsive website templates, create pages or select from one of over 40 preset page layouts, add a blog page, photos, and photo galleries. When you change templates in Weebly all of your existing content transfers over. You will also create a contact form, connect social media, and learn how to publish your site. You will be amazed at how easy it is to create a website in a day. Weebly’s flexibility allows you to customize your layouts and template designs making your site truly your own.

Note: Weebly offers a free basic account which will be used in class. Requirements: Computer, web browser, and mouse proficiency.

INT152 | 6.5 hours | $199 fee

INSTRUCTOR: Jeannine Morber

5448 S 9am – 4pm 9/17 C211B

NEW! Website in a Day with Squarespace

Want to create a beautiful, functional website without having to write a line of code? Squarespace website builder provides the tools which enable you to create multiple page mobile-ready responsive websites, blogs, galleries, and ecommerce sites. This is accomplished utilizing a simple drag-and-drop interface. Additionally, Squarespace is very secure and does not require updating, patching, or modifying of any software. Squarespace takes care of all of that for you! You will learn how to set up a free trial account with Squarespace, choose a beautiful designer website template, add pages, a blog page, photos, and photo galleries. You will also create a contact form, connect social media, and learn how to publish your site. Squarespace has a style editor that helps you do all the custom styling without touching codes, from changing of background images all the way down to customizing thumbnail details. Attendees will walk away having created a website in a day, empowered to take the next steps on your own.

Note: Squarespace offers a free 14-day trial which will be used in class. Requirements: Computer, web browser, and mouse proficiency.

INT151 | 6.5 hours | $199 fee

INSTRUCTOR: Jeannine Morber

5446 S 9am – 4pm 9/24 E108

WordPress, Level I

This introductory hands-on course will focus on what WordPress is, what it can do, and how to use it for a blog, a website, or both. Students will work on WordPress site provided for them for use during the class. This class is perfect for staff responsible for a company WordPress website or blog. Prerequisite: Computer and web browser proficiency.

INT171 | 4.5 hours | $149 fee

INSTRUCTOR: Jeannine Morber

5450 S 9am – 2pm 10/1 E108

WordPress, Level II

Learn to add more functionality to their WordPress website and blog by installing and configuring WordPress plugins. Students will also learn to change the look of the website by installing and configuring a new theme. This is a hands-on workshop where students will work on WordPress sites provided for them to use during class. Prerequisite: WordPress Level One or permission of the instructor.

INT172 | 6.5 hours | $199 fee

INSTRUCTOR: Jeannine Morber

5451 S 9am – 4pm 10/8 E108

WordPress, Level III

Explore more advanced plugins and features of WordPress such as search engine optimization, website backup, spam filters, and login in tracking and security plugins. This is a hands-on workshop where students will work on WordPress sites provided for them to use during class. Prerequisite: WordPress Level Two or permission of the instructor.

FALL 2016 • frederick.edu/QuickEnroll • 301.624.2888 25
**Introduction to Java Programming**

If you want to learn computer programming but don’t have any prior experience, you will enjoy a tour of Java, one of the most widely used computer languages in the world. It’s a breeze to learn in a friendly and supportive environment. Start with the basics of programming and go on to write your own programs and integrate input and output, calculations, decision making, and loops. Build your knowledge and confidence with easy-to-understand examples and plenty of skill-building exercises. So whether you just want to try it out to see if you like it or plan on doing more with Java, this is a great place to start! Participants will use the latest release of Java, from Oracle, the company that maintains and supports the language. You will also use BlueJ, a graphical development environment designed especially for students. Both are free open-source products, and you will be given the proper instructions to download them. By the time we’re done, you will be comfortable with Java programming and ready for more! Course revised November 2013

**Intermediate Java Programming**

Deepen your understanding of the Java programming language, and start writing programs that are more sophisticated and professional. Learn how to save data permanently on a disk by writing it to a sequential data file. See how to read the file to get the data back and process it. Organize information using multiple classes in Java’s class hierarchy and inheritance. Explore some of the hundreds of classes that are built into the Java language. Find out how to create GUI applications in Java using tools like windows, menus, buttons, text boxes, check boxes, scroll bars, and other GUI tools. Over the six weeks of this course, you will build several complete applications that combine these concepts. You will also use the knowledge you gain to solve programming problems included with the lessons—problems designed to help you master all the principles you learn.

**Introduction to SQL**

Learn the key concepts of Structured Query Language (SQL), and gain a solid working knowledge of this powerful and universal database programming language. In this course, you will learn about the basic structure of relational databases and how to read and write simple and complex SQL statements and advanced data manipulation techniques. Learn about the traditional database structure, the structure and history of the relational database, and what structured query language (SQL) is and how it relates to the relational-database structure. Discover how to use SQL to sort and retrieve data from tables and how to use SQL to filter retrieved data. You will learn how to reformat retrieved data with calculated fields and how to merge columns and create alternate names for columns. You will also learn how to gather significant statistics from data using aggregate functions, and you will see how to extract data from multiple tables simultaneously using joins and subqueries.

This course will also cover how to use SQL to create and maintain tables, and learn how to create and use views to simplify complex queries, summarize data, and manipulate data stored in tables. Discover how transaction processing, constraints, and indexes are implemented in SQL. And finally, discover how stored procedures, triggers, and cursors are implemented. By the end of this course, you will have a solid working knowledge of structured query language. You will feel confident in your ability to write SQL queries to create tables; retrieve data from single or multiple tables; delete, insert, and update data in a database; and gather significant statistics from data stored in a database.

**Intermediate SQL**

Expand your knowledge of Structured Query Language (SQL), the industry standard database programming language. In this course, you will learn techniques that will enable you to write powerful queries that perform complicated searches and sorts on your data. Explore how to write and implement complex queries on multiple tables simultaneously and how to apply advanced filtering techniques. Create union queries that combine records from multiple queries, and discover how to use union queries to exclude or include duplicate records. In addition, you will find out how to use text strings within union queries. You will master advanced techniques for updating various types of data stored in your tables, and learn how to update a single field, multiple fields, multiple records, date fields, and calculated fields. Learn how to update and set NULL values using an update statement.

In addition, you will use advanced insertion techniques to add data to your tables and learn how to create, query, and modify temporary tables. You will also see how to implement techniques to handle duplicate values stored in a table and how to limit the results of a result set. And finally, discover how to use string functions to perform complicated searches on strings, implement date and time functions to insert and extract portions of a date, and create queries that accept input from users. By the end of this course, you will be able to use a wide range of advanced SQL techniques with confidence. Your new skills with databases will enhance your competitiveness in the technical fields of software development and database administration.

Introduction to C# Programming
Learn the fundamentals of computer programming with C#, the in-demand and incredibly useful programming language that incorporates the best features of Visual Basic, C++, and Java. You will first develop your understanding of programming fundamentals: input/output operations, decision making, and looping. Then, explore the many benefits of object oriented programming, with plenty of vivid, real-life examples. Then, you will gain hands-on experience with sequential data files, and you will be able to build a professional-looking and intuitive Graphical User Interface (GUI) application on your own computer. Because there is no better way to learn programming than hands-on practice, almost every lesson includes practical examples and assignments you can use to develop your knowledge of programming. Learn to program the right way: by using a state-of-the-art language to build impressive applications on your schedule and on your very own computer.

Intermediate C# Programming
Build upon your current knowledge of programming logic by writing Graphical User Interface (GUI) applications in the C# programming language. This course will show you how to write professional looking applications with many of the common GUI controls, such as buttons, labels, text boxes, check boxes, and radio buttons. You will also learn how to put menus and toolbars into your program to make them easier to use. And later in the course, you will find out how to make your program interact with sequential files, random access files, and databases. This six-week course walks you through computer application design and implementation by giving you real examples that you can enter as you learn. Since practicing is the best way to learn programming, most lessons have more than one example, and each provides a programming problem you can solve to demonstrate your new knowledge. Creating Web Pages
Create and post your very own Web site on the Internet using HTML in this extensive, hands-on, six week workshop. First, you will learn about the capabilities of the World Wide Web and the fundamentals of web design. Then, with your instructor’s patient guidance, you will plan the content, structure and layout of your Web site, create pages full of neatly formatted text, build links between the pages and to the outside world, and add color, backgrounds, graphics, and tables. You will also learn critical and timely information on securing the best possible location in search engine listings, and powerful no-cost or low-cost web marketing strategies.

Advanced Web Pages
Take your Web design skills to the next level! Whether you want to work as a freelance Web designer, join a Web development team, or build websites for your organization, this course will give you the advanced tools you need. In these lessons, you will learn to write HTML code for page content and CSS code for page styling. You will master cutting-edge techniques that take advantage of HTML5 and CSS3, the latest versions of the languages used to create modern websites. With the help of step-by-step instructions, you will build interactive websites that collect information from visitors through email signup and feedback forms. In addition, you will learn the latest and most effective techniques for presenting layouts and video that work in any browsing environment from a desktop computer to a mobile device. Along the way, you will explore aesthetics, color scheming, and accessible Web page design. And don’t worry if you have only the most basic exposure to Web design! This course walks you all the way through to purchasing and uploading your site to a remote server. You won’t need any special software, either – just the text editor that comes installed with your computer. Whether you’re a beginner or an experienced Web designer wanting to update and enhance your skills, this course is perfect for you. In just a few weeks, you will be designing state-of-the-art websites that offer all the sophisticated elements that today’s Web users expect to see.

Write Effective Web Content
Is your Web content as effective as it could be? In this course, you will gain tips for crafting content to make your website or blog into an exciting multimedia place for visitors. You will learn how to develop a website writing style that speaks to your readers’ needs and ensures that your content is clear and easy-to-understand. Explore ways your Web copywriting can convey the right “feel” through your content, how to get conversations going with your visitors, and how to organize your content to produce better search engine rankings and happier readers. But today’s Web is about a lot more than words. You will also explore all kinds of multimedia from images to infographics to slideshows to screencasts, as well as ways to encourage interaction with your readers, such as polls, surveys, and quizzes. By the end of this course, your content will be well on its way to rising to the top of the billions of pages on the Web!

**IT CERTIFICATION PREPARATION**

**Basic CompTIA A+ Certification Prep**

Time to roll up those sleeves and dive inside the personal computer! The Basic CompTIA A+ Certification Prep course teaches you about the hardware common to virtually every personal computer, including microprocessors, RAM, power supplies, motherboards, BIOS, CMOS, the expansion bus, and input/output devices. You will learn how things work, how to configure everything, and how to troubleshoot in real-world environments. This course gives you the knowledge upon which you will base the rest of your CompTIA A+ certification studies for the 220-801 and 220-802 exams. Plus it helps you take that first step to becoming an excellent PC technician. So what are you waiting for? Course revised January 2014

**Intermediate CompTIA A+ Certification Prep**

The Intermediate CompTIA A+ Certification Prep course picks up where the Basic course left off and plunges you head-first into Windows. You learn how to install, organize, maintain, and troubleshoot three different versions of Windows. You will examine and compare the features and structures of Windows XP, Vista, and 7. Toward the end of the course you will get a deeper understanding of how we use virtualization and virtual machines in modern networks. Plus you will learn about printers, from the various technologies in use to installing and troubleshooting. This course takes you through the second of three steps you need to become both a highly-competent PC tech and a CompTIA A+ certified technician, using the 801 and 802 competencies. **CompTIA® Security+ Certification Prep 1**

The U.S. Department of Labor forecasts that information security analysts will be among the fastest-growing occupations through 2022. CompTIA’s Security+ certificate is widely regarded as the entry-level certificate for this fast-growing field. Getting that certificate requires passing CompTIA’s challenging SY0-401 exam. This course covers the key terminology and concepts you need to know to ace the exam, all in a condensed format for rapid reading. The course provides helpful study tools including crossword puzzles, games, and practice questions to aid with learning. All of the content is geared toward helping you pass the SY0-401 exam so you can leave the test center with your Security+ certificate in hand. Please note that if you received your CompTIA Security+ certification before 1/1/2011, you will be a lifetime credential holder not subject to credential renewals. However, if you achieve your certification after 1/1/2011, you are subject to a CompTIA Security+ renewal process every three years. Course revised November 2014

Construction & Building Trades

ELECTRICAL

Fundamentals of Structural Wiring
Covers basic principles and fundamentals of electricity and electrical work. Course will include components of schematics and blueprints, importance and role of the National Electrical Code, and safety. Students will receive hands-on experience with tools of the trade, wiring, and installing components of accessory terminations. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. There is a required textbook for this course, please visit www.bookstore.frederick.edu for more details. Prerequisite: BLD 142 or ELC 121 or ELC 168. You must register on campus.

ELC167 | 90 hours | $639 ($476 tuition + $163 fees)

INSTRUCTOR: CE Instructor
5823 TTh 6pm – 9pm  8/23–10/6 Monroe Center/MC117

Residential Electric
This course will advance student knowledge in the National Electric Code (NEC) and its application. Topics covered will include NEC calculations, as well as print reading, circuitry, schematics, materials, and circuit testing. Hands-on applications will be conducted in a lab setting. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. There is a required textbook for this course, please visit www.bookstore.frederick.edu for more details. Prerequisite: BLD 141 or ELC 120 or ELC 167. You must register on campus.

ELC168 | 60 hours | $497 ($357 tuition + $140 fees)

INSTRUCTOR: CE Instructor
5824 TTh 6pm – 8:30pm  10/18–12/8* Monroe Center/MC117
*No class 11/14.

Commercial Electric
Continues concepts and skills covered in the first two courses of the electrical building trades program. This course covers wiring methods mainly used in commercial construction. Topics covered include: conduit (bending, installation), commercial lighting (fluorescent, HID), and transformers. Students will also have an overview of the applicable sections of the National Electrical Code (NEC), including box/conduit fill, and load calculations. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. There is a required textbook for this course, please visit www.bookstore.frederick.edu for more details. Prerequisite: BLD 142 or ELC 121 or ELC 168. You must register on campus.

ELC166 | 60 hours | $497 ($357 tuition + $140 fees)

INSTRUCTOR: CE Instructor
5822 MW 6pm – 8:30pm  8/22–10/10* Monroe Center/MC117
*No class 9/5.

Scholarships are available for students in the Building Trades program. For more information, contact the Foundation Office at 301.846.2438.

Specialized Systems
Covers topics in the electrical field such as CAT5, CAT6, CATV, fiber optics, fire alarms, photovoltaic, and electric controls. Students will receive hands-on experience working with materials and components in a lab setting. Students will also be introduced to the National Electrical Code (NEC) codes governing these various sub-fields of the electrical industry. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. There is a required textbook for this course, please visit www.bookstore.frederick.edu for more details. Prerequisite: BLD 142 or ELC 121 or ELC 168. You must register on campus.

ELC169 | 60 hours | $497 ($357 tuition + $140 fees)

INSTRUCTOR: CE Instructor
5825 MW 6pm – 8:30pm  10/19–12/7* Monroe Center/MC117
*No class 11/23.

HVAC

Fundamentals of HVACR
Covers fundamentals of heating, cooling, ventilation, humidity control and basic refrigeration. Students will receive hands-on experience in a lab setting. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. There is a required textbook for this course, please visit www.bookstore.frederick.edu for more details. Prerequisite: EN 51 or ESL 70 or ESL 97. You must register on campus.

HVC121 | 90 hours | $639 ($476 tuition + $163 fees)

INSTRUCTOR: CE Instructor
5435 MW 6pm – 9pm  8/22–10/10* Monroe Center/MC119
*No class 9/5.

Controls for HVACR
Covers the topics of controls in HVACR with respect to thermostats, pressure, safety and temperature devices, and valves. In a lab environment students will be able to identify and apply usage of these components. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. There is a required textbook for this course, please visit www.bookstore.frederick.edu for more details. Prerequisite: BLD 109 or HVC 121. You must register on campus.

HVC126 | 60 hours | $497 ($357 tuition + $140 fees)

INSTRUCTOR: CE Instructor
5437 MW 6pm – 8:30pm  10/19–12/7* Monroe Center/MC119
*No class 11/23.

HVAC Installation & Troubleshooting
Teaches students basics of troubleshooting, installation, service and preventative maintenance techniques HVAC equipment. Course includes EPA CFC certification. Hands-on experience will be conducted in a lab setting where students will demonstrate and apply these techniques. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. There is a required textbook for this course, please visit www.bookstore.frederick.edu for more details. Prerequisite: BLD 110 or HVC 122 or HVC 126. You must register on campus.

HVC128 | 60 hours | $497 ($357 tuition + $140 fees)

INSTRUCTOR: CE Instructor
5439 TTh 6pm – 8:30pm  8/23–10/6 Monroe Center/MC119
## CONSTRUCTION & BUILDING TRADES

### Fossil Fuels & Hydronic Heating
Covers fossil fuel heating devices, hydronic and forced air equipment. Students will apply troubleshooting, installation, service, and preventative maintenance techniques on these systems in a lab setting. This course is offered in a Hybrid format where the lecture portion of the course is completed online outside of class meeting times. There is a required textbook for this course, please visit www.bookstore.frederick.edu for more details. Prerequisite: BLD 110 or HVC 122 or HVC 126. You must register on campus.

### WELDING

#### Welding Symbols & Blueprint Reading
Introduces students to interpret various types of prints used in the welding industry. Topics include: print reading, measurements, metallurgy, types of welds and joints, and welding symbols. There is a required textbook for this course, please visit www.bookstore.frederick.edu for more details. Prerequisite: EN 51 or ESL 70 or ESL 97. You must register on campus.

*No class 9/5, 11/23.

#### Advanced Welding: SMAW
Focuses on Shielded Metal Arc Welding (SMAW). Students will perform a SMAW welding performance qualification test on limited thickness test plates in the 2G and 3G positions on carbon steel in accordance with American Welding Society D1.1 Structural Welding Code, this leads to an in house certification. There is a required textbook for this course, please visit www.bookstore.frederick.edu for more details. Prerequisite: BLD 121 or WLD 160. You must register on campus.

### SAFETY

#### Forklift Safety
Pick, travel, and place loads with confidence after completing this hands-on class for forklift operators. Walk through procedures for forklift inspection, maintaining lift stability and tip-over prevention, loading and unloading trailers, and identifying forklift types and operations. Classroom and practical training meet the requirements of OSHA 1910.178(l).

---
INDUSTRY TEST PREP

Electricity: Journeyman/Master Exam Prep
Prepares students for the master's license exam. Reviews the NEC, calculations, and other critical components to prepare for the exam. Emphasis is on calculations. Students must bring a 2014 National Electrical code book.

TRD157 | 30 hours | $249 ($229 tuition + $20 fees)

INSTRUCTOR: CE Instructor
5678  Th 6pm – 9pm  9/29–12/8* Monroe Center/MC151

National Electric Code - NEC - Update-10 Hour
This course covers the updates to the National Electric Code (NEC). The NEC is updated every 3 years. Learn about the important changes that have happened to the NEC, and how perform new calculations. An overview of NEC navigation and application will assist you in staying compliant. There will also be time to cover NEC related questions.

TRD265 | 10 hours | $175 ($149 tuition + $26 fees)

INSTRUCTOR: Charles LoSchiavo
5682  ThF 11:30am – 4:30pm  12/15–12/16 Monroe Center/MC155

Commercial Driver's License - CDL - Class B Training
In this class, students develop the skills to drive a dump truck, commercial delivery truck, or other two-axle vehicle weighing over 26,000 pounds. Class topics include defensive driving, road safety, pre-trip inspections, and vehicle control and maneuvering. Successful completers will have one opportunity to take the licensing exam as part of the class.

Note: This course is not available for online registration. Registrations will be accepted at the CEWD Registration Office located in the Conference Center, Building E, Room E-113. A textbook is required for this class. One or more sections of this class may require online coursework outside of class meeting times. For more information, contact Adrienne at 240.629.7987.

TRK155 | 65 hours | $1,868 ($358 tuition + $1,510 fees)

INSTRUCTOR: CE Instructor
5683  S 8am – 4pm  9/17–10/29 Hagerstown Community College

EPA 608/CFC Certification
The EPA 608 certification is required for all technicians working with CFCs. This course will prepare you to take the exam. Core, Type 1, 2, & 3 will all be reviewed. At the end of the class, each student will have the opportunity to take the EPA 608 exam. Students will need to pass Core and one or more of the three Types to receive certification. Students passing all four sections will receive Universal certification.

TRD260 | 8.5 hours | $169 ($109 tuition + $60 fees)

INSTRUCTOR: Charles LoSchiavo
5681  W 9am – 5:30pm  12/14 Monroe Center/MC155

MD Stationary Engineer Exam Prep I
This course is designed to assist the individual in gaining necessary tools to successfully pass the Maryland grade 5 & 4 Stationary Engineer licensing exams. This course will provide an introduction for individuals interested in this field. Course topics include basic electricity, boiler types and equipment, steam system accessories, burners and fuel train, inspection and maintenance, water treatment, emergency operations, auxiliary equipment, combustion and boiler controls, LOTO and basic arithmetic operations.

TRD191 | 39 hours | $299 ($269 tuition + $30 fees)

INSTRUCTOR: CE Instructor
5998  Th 6pm – 9pm  10/4–11/15 TBA

PROFESSIONAL DEVELOPMENT

Intro to AutoCAD I
Introduces the in-depth study of the fundamentals of AutoCAD. This is an intensive hands-on course covering the basic commands used to create 2-D production drawings. Students learn how to create and modify geometrical designs, plot from Paper Space, and use layers to organize and separate information. Also offered for credit as CAD101.

Note: Prerequisite: EN51 or ESL97 or ESL70. This course is not available for online registration. Registrations will be accepted at the CEWD Registration Office located in the Conference Center, Building E, Room E-113. A textbook is required for this class. One or more sections of this class may require online coursework outside of class meeting times. For more information, contact Adrienne at 240.629.7987.

DRF104 | 37.5 hours | $426 ($357 tuition + $69 fees)

INSTRUCTOR: CE Instructor
5808  M 5pm – 7:35pm  8/22–12/5* B114

TRK155 | 65 hours | $1,868 ($358 tuition + $1,510 fees)

INSTRUCTOR: CE Instructor
5683  S 8am – 4pm  9/17–10/29 Hagerstown Community College

EPA 608/CFC Certification
The EPA 608 certification is required for all technicians working with CFCs. This course will prepare you to take the exam. Core, Type 1, 2, & 3 will all be reviewed. At the end of the class, each student will have the opportunity to take the EPA 608 exam. Students will need to pass Core and one or more of the three Types to receive certification. Students passing all four sections will receive Universal certification.

TRD260 | 8.5 hours | $169 ($109 tuition + $60 fees)

INSTRUCTOR: Charles LoSchiavo
5681  W 9am – 5:30pm  12/14 Monroe Center/MC155

Intro to AutoCAD II
Continues the study of AutoCAD at an intermediate level. Students will create pictorial views and three dimensional drawings. Additionally, students will be introduced to other CAD systems such as Autodesk, Architecture, Revit, Civil 3D and Microstation. Also offered for credit as CAD102.

Note: Prerequisite: CAD101 or DRF104. Prerequisite: EN51 or ESL97 or ESL70. This course is not available for online registration. Registrations will be accepted at the CEWD Registration Office located in the Conference Center, Building E, Room E-113. A textbook is required for this class. One or more sections of this class may require online coursework outside of class meeting times. For more information, contact Adrienne at 240.629.7987.

DRF106 | 37.5 hours | $426 ($357 tuition + $69 fees)

INSTRUCTOR: CE Instructor
5805  T 5pm – 7:35pm  8/23–12/6 B114

Register early. Each course has a maximum number of students that can enroll, and popular courses may fill quickly. Course cancellation decisions due to low enrollment are typically made three business days prior to the course start date.

Healthcare Careers

STERILE PROCESSING

NEW! Sterile Processing Technician Training: Fundamentals

This continuing education course trains individuals to become competent sterile processing technicians and prepares participants for sterile processing technician certification. Upon completion of training, students receive a Certificate of Completion and are prepared to take the Certified Registered Central Service Technician (CRCST) certification exam offered by the International Association of Healthcare Central Service Material Management (IAHCSMM).

The course will cover the following topics: anatomy and physiology, microbiology, instrumentation (identification of and handling of), safety standards, cleaning, decontamination, disinfection, preparation, infection control, sterilization process, packaging, wrapping, processing patient care equipment, sterile storage, distribution and inventory management, documentation and record management, ethics and standards. This course has both a lecture and interactive lab component in the classroom where students will receive hands-on experience with instruments and wrapping techniques. Students must register for Sterile Processing Technician Training: Externships 1-4 when registering for the Fundamentals course to fulfill IAHCSMM certification requirements and obtain on-the-job training. Students working in a hospital or sterile processing position may be evaluated for an externship waiver. Contact the program manager, 240.629.7904.

Registration Information: This course is not available for online registration. Registrations will be accepted in person at the Conference Center (E building) on FCC’s main campus. For more information, contact FCC at 240.629.7904.

Prerequisites & other requirements:
• Prerequisites: Placement into EN01 or ESL72 (Students will need to take placement tests in the college’s Testing Center) Provide proof of being 18 years of age or older at time of registration.
• Other program requirements PRIOR to Externship: Provide evidence of a negative TB test or chest X-ray. Undergo a physical examination and provide proof of up-to-date immunizations. Current American Heart Association Healthcare Provider or Basic Life Support CPR card or SAF 157–CPR Basic Life Support (Formerly Healthcare Provider). Undergo a background investigation. Drug-testing may be required. Fees for background check are included in course fees. Students will receive paperwork for their physical exam, immunizations, and background check during the beginning of the Sterile Processing Fundamentals (CAH020) course. Payment plan available. See next page for schedule and pricing.

HEALTHCARE CAREERS

Get Training in an Allied Health Field!

• Certified Nursing Assistant
• Dental Assistant
• Phlebotomy
• Sterile Processing Technician

If you are a single parent, unemployed or underemployed, AHA might be right for you. The Allied Health Academy (AHA) provides consideration for financial assistance toward tuition, books, child care, and transportation; support from a case manager, and tutoring (as available).

FCC Office of Adult Services • 301.846.2483 • frederick.edu

Payment Plans Available
Take Advantage of FCC’s payment plan when you register for a series of required courses in a program. This allows you to divide your total cost into automatic monthly payments from either a checking/savings account or major credit card. The plan is interest free with a non-refundable enrollment fee of $25. Ask about the payment plan when you register at the CE Registration Center (FCC Conference Center “E” Building), call 301.624.2888 or email CErequest@frederick.edu for payment plan inquiries.
**NEW! Sterile Processing Technician Training: Externship 1-4**

This series is a continuation of training for students completing the Sterile Processing Technician Fundamentals course and required for Registered Central Service Technician (CR CST) certification issued by the International Association of Healthcare Central Service Material Management (IAHCSMM). These externships offer students direct experience in the field to prepare for employment and/or fulfillment of the 400 hour field experience required for those seeking full CR CST certification. Students gain first-hand experience in many of the following areas: general cleaning, wrapping and packaging, instrument and procedure tray assembly, sterilization, patient care equipment, care carts, linen folding and distribution. Externship locations vary through the greater Baltimore/DC/Frederick region. Upon completion of training, students receive a Certificate of Completion and can submit logged hours and experience directly to IAHCSMM for Certified Registered Central Service Technician (CR CST) certification consideration.

**Registration Information:** This course is not available for online registration. Registrations will be accepted in person at the Conference Center (E building) on FCC’s main campus. For more information, contact FCC at 240.629.7904.

**Prerequisites & other requirements:**

- Prerequisites: Enrolled in or completion of Sterile Processing Technician Training Fundamentals course (CAH320). Provide proof of being 18 years of age or older at time of registration.
- Corequisites: Enrollment in CAH321, CAH322, CAH323, CAH324
- Other program requirements PRIOR to Externship: Provide evidence of a negative TB test or chest X-ray. Undergo a physical examination and provide proof of up-to-date immunizations.

**CERTIFIED NURSING ASSISTANT (CNA/GNA)**

Become an integral part of a healthcare team in one of the fastest growing healthcare fields. Learn basic patient care skills, your role as a member of the healthcare team, disease processes, infection control, and safety issues.

Combined with a clinical experience, this course meets all eligibility requirements for CNA certification in the state of Maryland and prepares you for the Geriatric Nursing Assistant (GNA) test. Application fees, GNA testing, background checks and materials are included. Textbooks are not included.

The program requires study time outside of class and includes tests, both written and practical (hands-on) skills, which must be passed prior to starting the clinical sessions.

**Registration Information:** This course is not available for online registration. Registrations will be accepted in person at the Conference Center (E building) on FCC’s main campus. For more information, contact FCC at 240.629.7904.

**Prerequisites & other requirements:**

- Placement into ENS52 or ESL72 (Students will need to take placement tests in the college’s Testing Center)
- Provide proof of being 18 years of age or older at time of registration.
- CAH144 – Introduction to Healthcare Careers
- CAH143 – Introduction to Allied Health Skills

**Other program requirements PRIOR to Clinical:**

- Provide evidence of a negative TB test or chest X-ray.
- Undergo a physical examination and provide proof of up-to-date immunizations.
- Current American Heart Association Healthcare Provider or Basic Life Support CPR card or register for SAF 157: CPR Basic Life Support (Formally Healthcare Provider). Undergo a background investigation. Drug-testing may be required. Fees for background check are included in course fees. Students will receive paperwork for their physical exam, immunizations, and background check during the beginning of the Sterile Processing Fundamentals (CAH320) course.

**Payment plan available**

Call 301.624.2888 or email CErequest@frederick.edu for more information.

*Required course for students entering Certified Nursing Assistant Program or Phlebotomy Technician Program.

### Certified Nursing Assistant, Part I

**CAH132 | 60 hours | $854 ($300 tuition + $554 fees)**

Learn basic patient care skills, the role as a member of the healthcare team, disease processes, infection control and safety issues. Combined with the clinical sessions, this course meets all requirements to be eligible for CNA certification in the state of Maryland and prepares students for the Geriatric Nursing Assistant (GNA) test which is included in course costs. All tests must be completed and passed prior to starting the clinical sessions.

### Certified Nursing Assistant, Part II

**CAH133 | 60 hours | $690 ($300 tuition + $390 fees)**

Part 2 is a continuation of Part 1.

### Certified Nursing Assistant — Clinicals

**CAH132 | 60 hours | $854 ($300 tuition + $554 fees)**

Participate in supervised clinical rotations with experienced, certified nursing faculty in local healthcare facilities. Students interact with residents, performing all the duties and responsibilities of a nursing assistant. Individual skills and evaluation are evaluated daily.

**Total Hours: 213**

**Total Program Cost: $2,890 + texts**

*No class 11/24, 11/25.

**CAH132 | 60 hours | $854 ($300 tuition + $554 fees)**

Learn basic patient care skills, the role as a member of the healthcare team, disease processes, infection control and safety issues. Combined with the clinical sessions, this course meets all requirements to be eligible for CNA certification in the state of Maryland and prepares students for the Geriatric Nursing Assistant (GNA) test which is included in course costs. All tests must be completed and passed prior to starting the clinical sessions.

**CAH133 | 60 hours | $690 ($300 tuition + $390 fees)**

Part 2 is a continuation of Part 1.

**CAH134 | 24 hours | $299 ($150 tuition + $149 fees)**

Gain the knowledge and skills needed to perform effectively in a learning environment and work productively in a healthcare setting. You will learn basic competencies of anatomy and physiology, HIPPA, workplace professionalism, communication and customer service, diversity, cultural competencies, task prioritization, and documentation specific to the healthcare environment. Required course for students entering Certified Nursing Assistant Program or Phlebotomy Technician Program.

**CAH143 | 24 hours | $399 ($175 tuition + $224 fees)**

This course is designed to introduce you to the basic patient skills required as a healthcare professional. Continue your understanding of anatomy and physiology, the techniques of determining vital signs, blood pressure, respiration, pulse, and patient communications. These skills enable you to function more effectively as a professional in a healthcare setting. Required course for students entering Certified Nursing Assistant Program or Phlebotomy Technician Program.

PHLEBOTOMY TECHNICIAN

Interested in a healthcare career that makes you an integral part of a medical laboratory team? Phlebotomy technicians work in physician’s offices, hospitals, clinical labs, and blood donation sites. Become familiar with all aspects related to blood collection and develop comprehensive skills to perform venipunctures completely and safely. Our program offers clinical practice with experienced phlebotomists at local healthcare facilities to give you hands-on experience. This program prepares students to take several national certification exams.

The program requires study time outside of class and includes tests, both written and practical (hands-on) skills, which must be passed prior to starting the clinical sessions. Background checks and materials are included. Textbooks are NOT included.

Registration Information: This course is not available for online registration. Registrations will be accepted in person at the CE registration center located in the Conference Center (E building) on FCC’s main campus. For more information on this program contact FCC at 240.629.7904.

Prerequisites & other requirements:
- Placement into EN52 or ESL72 (Students will need to take placement tests in the college’s Testing Center)
- Provide proof of being 18 years of age or older at time of registration.
- CAH144 Introduction to Healthcare Careers
- CAH143 Introduction to Allied Health Skills

This course requires verification of completion of prerequisite courses or other requirements. Please see course description for more information.

Other program requirements PRIOR to Clinical:
- Provide evidence of a negative TB test or chest X-ray.
- Undergo a physical examination and provide proof of up-to-date immunizations.
- Current American Heart Association Healthcare Provider or Basic Life Support CPR card or register for SAF157: CPR Basic Life Support (formerly Healthcare Provider).
- Undergo a background investigation. Fees for background check and fingerprinting are included in course fees.
- Students will receive paperwork for their physical exam, immunizations, and background check during the beginning of the Phlebotomy course, CAH483.

Payment plan available
Call 301.624.2888 or email CErequest@frederick.edu.

Textbooks
Textbooks available at http://bookstore.frederick.edu/home.aspx

Students must obtain certification in CPR: Basic Life Support (SAF157) prior to attending clinical for CNA/GNA, Phlebotomy or Sterile Processing externships. See page 37 for a list of class dates.

Payment Plans Available
Take Advantage of FCC’s payment plan when you register for a series of required courses in a program. This allows you to divide your total cost into automatic monthly payments from either a checking/savings account or major credit card. The plan is interest free with a non-refundable enrollment fee of $25. Ask about the payment plan when you register at the CE Registration Center (FCC Conference Center “E” Building), call 301.624.2888 or email CErequest@frederick.edu for payment plan inquiries.

SUMMARY OF COURSES & COSTS

Intro to Healthcare Careers

CAH144 | 24 hours | $299 ($150 tuition + $149 fees)

Gain the knowledge and skills needed to perform effectively in a learning environment and work productively in a healthcare setting. You will learn basic competencies of anatomy and physiology, HIPAA, workplace professionalism, communication and customer service, diversity, cultural competencies, task prioritization, and documentation specific to the healthcare environment. Required course for students entering Certified Nursing Assistant Program or Phlebotomy Technician Program.

Intro to Allied Health Skills

CAH143 | 24 hours | $399 ($175 tuition + $224 fees)

This course is designed to introduce you to the basic patient skills required as a healthcare professional. Continue your understanding of anatomy and physiology, the techniques of determining vital signs, blood pressure, respiration, pulse, and patient communications. These skills enable you to function more effectively as a professional in a healthcare setting. Required course for students entering Certified Nursing Assistant Program or Phlebotomy Technician Program.

Phlebotomy Technician Preparation I: Theoretical Applications

CAH483 | 30 hours | $399 ($299 tuition + $100 fees)

In Part I, Theoretical Applications, students learn basic phlebotomy technical background and professional preparation for working as a phlebotomist. Students are introduced to anatomy and physiology with special emphasis on the cardiovascular and lymphatic system, applicable medical terminology and an overview of healthcare settings where phlebotomy services are performed. Students learn and apply professional ethics and behavior; interpersonal and written communications, including cultural competency; systems of documentation; and safety and infection control. Students will develop knowledge and comprehensive skills to prepare them to perform venipunctures completely and safely as they progress to Part II: Practical Applications. The full program includes classroom and both in-class and on-site clinical practice at local healthcare facilities. This program requires study time outside of class and includes both written and practical (hands-on) skills assessments, which must be passed prior to starting the clinical course. The program prepares students to take a national certification with the American Society for Clinical Pathology.

Phlebotomy Technician Preparation II: Practical Applications

CAH484 | 45 hours | $499 ($399 tuition + $100 fees)

Phlebotomy Technician II: Practical Applications is a continuation of Part I, Theoretical Applications. In this course students learn to perform venipuncture and specialized phlebotomy procedures. Students are familiarized with blood collection equipment and selection, specimen handling and identifying complications related to blood collection and medical errors. Students train on a variety of procedures and techniques for typical and special populations clients. Special topics in specimen uses for testing in forensics, workplace and sports are explored. Hands-on skills practicums prepare students for the clinical course. The full program includes classroom and on-site clinical practice with experienced phlebotomists at local healthcare facilities to give students hand-on professional experience and prepares students to take a national certification with the American Society for Clinical Pathology. The program requires study time outside of class and includes both written and practical (hands-on) skills assessments, which must be passed prior to starting the clinical course.
HEALTHCARE CAREERS

Phlebotomy Technician Clinical

CAH466 | 100 hours | $625 ($425 tuition + $200 fees)

Participate in 100 hours of supervised clinical rotations with experienced phlebotomists in local healthcare facilities. Students will perform 100 supervised venipunctures. Individual skills and execution will be evaluated daily.

Total Hours: 223
Total Program Cost: $2,221 + texts

INTRODUCTION TO DENTAL ASSISTING

Participants will have entry-level dental assisting skills upon successfully completing this course, which is approved by the Maryland State Board of Dental Examiners. Topics include terminology, anatomy, charting and medical history, instruments, four-handed dentistry, restorative materials, oral hygiene, infection control, sterilization, and OSHA regulations. This hands-on course provides practice on equipment in a dental operatory/lab and practice using dental software. Prerequisite: CAH494 Professional Preparation in Healthcare. Course includes an online component; internet access required.

Note: This course is not available for online registration. Registrations will be accepted in person at the Conference Center (E building) on FCC's main campus. For more information, contact FCC at 340.629.7904. Please note: this class will be located at Carroll Community College, Westminster, MD.

CAH495 | 40 hours | $745 ($600 tuition + $145 fees)

INSTRUCTOR: CE Instructor

S417 | Th 5pm – 9:15pm | 9/15–11/17 | Carroll Community College

DENTAL ASSISTING & DENTAL RADIOGRAPHY

Professional Preparation in Healthcare

Learn the essentials of becoming successful as a student and employee in today's healthcare systems. Topics include communication, working well on teams, respecting and valuing differences, and the importance of professionalism. Discuss the availability of healthcare careers in the local region, marketing your skills to potential employers, resumes, application letters and how to prepare for interviews.

Note: This course is the prerequisite to Introduction to Dental Assisting. This course is available for online registration. Registrations will also be accepted in person at the Conference Center (E building) on FCC's main campus. For more information, contact FCC at 240.629.7904. Please note: this class will be located at Carroll Community College, Westminster, MD.

CAH494 | 7.5 hours | $85 ($65 tuition + $20 fees)

INSTRUCTOR: CE Instructor

S415 | T – Th 9am – 11:45am | 8/23–8/25 | Carroll Community College
S416 | WTh 6pm – 8:45pm | 9/1–9/8 | Carroll Community College

Oral Radiography with Clinical

Further your dental assisting career and prepare to sit for the DANB Radiation Health and Safety exam. This course is approved by the Maryland State Board of Dental Examiners. Completion of a three-hour, hands-on clinical practicum is required. You may complete your clinical at your place of employment or at the Maryland State Dental Association. Course includes an online component; internet access required. Register for this section if you are currently employed as a dental assistant and will be completing your clinical requirements at your place of employment.

CAH496 | 39 hours | $855 ($585 tuition + $270 fees)

INSTRUCTOR: CE Instructor

S418 | M 6pm – 9:15pm | 11/28–3/13* | Carroll Community College
*No class 12/19, 12/26, 01/2/2017, 01/16/2017.

Oral Radiography

Further your dental assisting career and prepare to sit for the DANB Radiation Health and Safety exam. This course is approved by the Maryland State Board of Dental Examiners. Completion of a three-hour, hands-on clinical practicum is required. You may complete your clinical at your place of employment or at the Maryland State Dental Association. Course includes an online component; internet access required. Register for this section if you are currently employed as a dental assistant and will be completing your clinical requirements at your place of employment.

CAH497 | 36 hours | $705 ($563 tuition + $142 fees)

INSTRUCTOR: CE Instructor

S419 | M 6pm – 9:15pm | 11/28–3/13* | Carroll Community College
*No class 12/19, 12/26, 01/2/2017, 01/16/2017.

Total Hours: 86.5
Total Program Costs: $1,685

Payment Plans Available
Take Advantage of FCC’s payment plan when you register for a series of required courses in a program. This allows you to divide your total cost into automatic monthly payments from either a checking/savings account or major credit card. The plan is interest free with a non-refundable enrollment fee of $25. Healthcare Careers

Radiation Safety Update
Renew your certification as a Dental Radiation Technologist. Gain an update on safety and technological advances related to the placement and exposure of dental radiographs. Topics to be covered include fundamental principles of radiography, patient safety, and operator safety. Approved by the Maryland State Board of Dental Examiners. 8 CEUs. Please note: this class will be located at Carroll Community College, Westminster, MD.

CAH498  |  9 hours  |  $199 ($135 tuition + $64 fees)
INSTRUCTOR: CE Instructor
5440    M 6pm – 9:15pm  11/28–12/12  Carroll Community College

Medical Assistant Exam Prep
Medical Assistant NCCT Certification Exam Prep and Review
This course is for medical assistants and medical assistant students preparing to take the National Certified Medical Assistant exam. The course provides review, practice and procedures in preparation for the exam using both online and interactive classroom methods. Review topics include medical terminology, patient exam and special populations, pharmacology, infection control, phlebotomy, anatomy and physiology, diagnostic testing, ECGs, bookkeeping, general office, insurance, laws and ethics.

CAH485  |  9 hours  |  $139 ($119 tuition + $20 fees)
INSTRUCTOR: CE Instructor
5408    T 6pm – 9pm  11/1–11/15  H205

Medical Billing & Coding
Medical Terminology: A Word Association Approach
This course teaches medical terminology from an anatomical approach. Root terms are divided by each body system. The origin, a combined form, and an example of non-medical everyday usage is provided for each root term. Word Associations are provided as a learning tool. Unusual and interesting information is provided in regards to each term. Root terms are combined with prefixes and suffixes as your learning will culminate in the interpretation of several paragraphs of medical notes.

ONL401  |  24 hours  |  $119 fee
INSTRUCTOR: CE Instructor
5567    Online  9/14–11/4
5568    Online  10/12–12/2
5569    Online  11/9–12/30

Medical Coding for the Physician’s Office - AAPC
Prepare for the American Academy of Professional Coders (AAPC) national certification exam. Learn medical terminology and how to use the coding manuals for CPT, ICD-10 and HCPCS to describe and document medical services. Cost includes first year’s membership in AAPC, textbooks and certification exam. The certification exam will be scheduled 2 weeks following the last class, on a Saturday. Prerequisite: Medical Terminology.

Note: This course is not available for online registration. Registrations will be accepted in person at the Conference Center (E building) on FCC’s main campus. For more information, contact FCC at 240.629.7904. Payment plan available. Please note: this class will be located at Carroll Community College, Westminster, MD.

CAH250  |  34 hours  |  $1,875 ($1,130 tuition + $745 fees)
INSTRUCTOR: CE Instructor
5414    MW 5:30pm – 8:45pm  8/22–11/16*  Carroll Community College
   *No class 9/5.

Medical Billing and Coding: Online
Medical billing and coding is one of the fastest-growing careers in the healthcare industry today! The need for professionals who understand how to code healthcare services and procedures for third-party insurance reimbursement is growing substantially. Physician practices, hospitals, pharmacies, long-term care facilities, chiropractic practices, physical therapy practices, and other healthcare providers all depend on medical billing and coding for insurance carrier reimbursement. This billing and coding program delivers the skills students need to solve insurance billing and coding problems. This course is designed to prepare students to sit for various national certification exams including those from the American Academy of Professional Coders (AAPC) and the American Health Information Association (AHIMA). Prerequisite: Medical Terminology.

Note: This course is not available for online registration. Registrations will be accepted in person at the Conference Center (E building) on FCC’s main campus. For more information, contact FCC at 240.629.7904.

CAH244  |  80 hours  |  $1,699 ($300 tuition + $1,399 fees)
INSTRUCTOR: CE Instructor
5442    Online  10/26–3/31
5443    Online  11/30–4/30

CPR & First Aid
CPR: Basic Life Support
Using the American Heart Association guidelines, this course is designed to teach the skills of CPR for victims of all ages. Includes ventilation with a barrier device, bag-valve mask device, oxygen, use of an automated external defibrillator (AED), and how to relieve foreign body airway obstruction. Intended for participants who work in a healthcare setting and are required to take a Basic Life Support course for their employment. This course fulfills the CPR requirement for students entering an allied health/healthcare clinical or externship course. Course completion card is issued for all participants in a Basic Life Support course who successfully complete the written examination and demonstration.

SAF157  |  6 hours  |  $85 ($40 tuition + $45 fees)
INSTRUCTOR: CE Instructor
5409    S 8:30am – 3pm  9/10  Monroe Center
5410    F 8:30am – 3pm  9/23  FCC/Main Campus
5411    S 8:30am – 3pm  10/8  Monroe Center
5412    S 8:30am – 3pm  10/29  FCC/Main Campus
5413    S 8:30am – 3pm  11/12  Monroe Center

Heartsaver CPR/First Aid/AED
This Heartsaver, First Aid and AED course includes adult CPR and is designed for the lay person and first responder. The first aid section includes first aid basics, medical emergencies, injury emergencies, and environmental emergencies applicable to all age categories. The CPR section presents basic techniques of Adult CPR, use of barrier devices during rescue breathing, and how to use an automated external defibrillator (AED).

SAF156  |  7 hours  |  $85 ($40 tuition + $45 fees)
INSTRUCTOR: CE Instructor
5405    F 8:30am – 4pm  8/26  E125
5406    S 8:30am – 4pm  10/8  Monroe Center/MC151
5407    S 8:30am – 4pm  11/12  Monroe Center/MC151

The American Heart Association strongly promotes knowledge and proficiency in all AHA courses and has developed instructional materials for this purpose. Use of these materials in an educational course does not represent course sponsorship by the AHA. Any fees charged for such a course, except for a portion of fees needed for AHA course materials, do not represent income to AHA.
Hospitality, Culinary, and Tourism Institute

The Hospitality, Culinary, and Tourism Institute (HCTI) offers degree and certificate programs designed to provide students with a strong foundation of knowledge, skills, and practical experience to succeed. Courses teach essential technical, business, and human relation skills to prepare students for entry level and supervisory positions in the hospitality, culinary and tourism industry.

CULINARY SKILLS

NEW! Culinary Fundamentals

Examines the basic concepts related to the preparation of food and introduces culinary terms. Demonstrates skills in knife usage, equipment identification and handling. Reviews issues related to menu planning, recipe development and cost control. Identifies skills and attributes needed to fill entry level culinary and food service positions. Discusses careers in restaurants and food/beverage operations. Students learn resume writing and job interviewing techniques. This course is co-listed as HOS111 in the credit schedule. Prerequisites: EN 52 or ESL99. It is suggested that this course be taken concurrently with HCT101 Culinary I.

HCT100 | 12.5 hours | $142 ($119 tuition + $23 fees)

INSTRUCTOR: CE Instructor
5992  M 2:30pm – 3:20pm  8/22–12/5* Monroe Center
*No class 9/5.
5993  Th 4:30pm – 5:20pm  8/25–12/8* Monroe Center
*No class 11/24.

NEW! Culinary I

Introduces the fundamental concepts, skills, and techniques involved in basic food preparation and cookery. Emphasis is placed on recipe conversion, measurements, terminology, knife skills, safe food handling, cooking methods, flavorings, seasonings, stocks/sauces/soups, and other related topics. This course is co-listed as HOS111 in the credit schedule. Students are required to have a proper chef uniform and basic knife kit. Both are available for purchase at the bookstore. Prerequisites: EN52 or ESL72. It is suggested that this course be taken concurrently with HCT101 Culinary Fundamentals and HCT103 Sanitation and Food Safety.

Note: Online registration is not available for this class.

HCT101 | 75 hours | $547 ($357 tuition + $190 fees)

INSTRUCTOR: CE Instructor
5994  M 9am – 2pm  8/22–12/5* Monroe Center
*No class 9/5.
5995  M 4:30pm – 9:30pm  8/22–12/5* Monroe Center
*No class 9/5.

NEW! Sanitation and Food Safety

Develops an understanding of basic principles of sanitation and food safety in food service operations. The course focuses on prevention of foodborne illnesses and introduces the student to HACCP planning and implementation. Successful passing of the National Restaurant Association exam provides certification as a “ServSafe Food Protection Manager.” Students will develop a HACCP plan. This course is co-listed as HOS112 in the credit schedule. It is suggested that this course be taken concurrently with HCT101 Culinary I.

HCT103 | 25 hours | $284 ($238 tuition + $46 fees)

INSTRUCTOR: CE Instructor
5997  W 2:30pm – 4:20pm  8/24–12/7* Monroe Center
*No class 11/23.
5998  Th 6pm – 7:40pm  8/25–12/8* Monroe Center
*No class 11/24.

HOSPITALITY/TOURISM MANAGEMENT

NEW! Introduction to Hospitality Management

Develops an understanding of the hospitality industry and introduces the student to the career opportunities available. Provides a basic understanding of the organizational structure and departmental functions within the hospitality industry. Examines the forces and issues that are shaping the current and future of the hospitality industry. Develops an understanding of competition and the role of management in providing product and service excellence. Various types of operations will be discussed emphasizing the value chain analysis and defining service as competitive advantage. This course is co-listed as HOS110 in the credit schedule. Prerequisites: (EN 50A or EN 61 and EN 52) or (ESL95 and ESL99) or (ESL72 and ESL73). Note: Online registration is not available for this class. This is a hybrid class that requires completion of coursework using Blackboard outside of class meeting times.

HCT102 | 37.5 hours | $426 ($357 tuition + $69 fees)

INSTRUCTOR: CE Instructor
5996  T 6pm – 8:35pm  8/23–10/4 Monroe Center

NEW! Catering and Event Management

Provides both practical knowledge and a comprehensive understanding of the catering and event management industry. Equips students with the knowledge to advance in the field if you are currently working in the field or will prepare you to enter the profession with an understanding of the industry. Provides the foundation for which students can build their careers in catering and special events or start their own business, and will examine the complex role of catering in the event management process. Topics include planning and development for a variety of special events, menu planning, service planning, room selection, setup and operation, and coordination and management of the event from the inception phase to the post-evaluation of the event. This is a hybrid course that requires out of class work using Blackboard. This course is co-listed with HOS215 in the credit schedule.

Note: Prerequisites for the course include (EN50A or EN61) and EN 52, or (ESL95 and ESL99), or (ESL72 and ESL73). Online registration is not available for this class.

SMB230 | 37.5 hours | $426 ($357 tuition + $69 fees)

INSTRUCTOR: CE Instructor
5983  Th 6pm – 8:35pm  8/25–10/6 Monroe Center

Register early. Each course has a maximum number of students that can enroll, and popular courses may fill quickly. Course cancellation decisions due to low enrollment are typically made three business days prior to the course start date.
English Language

TARGETED ENGLISH LANGUAGE PROGRAM

Listening & Speaking 1
This intermediate listening and speaking course will expose students to authentic English and build their ability to comprehend the imperfect English they encounter on a regular basis as well as build their communicative skills by introducing the vocabulary and pronunciation features necessary to discuss a variety of topics.

Note: These courses are not available for on-line registration. All students must come in to A106 to begin the registration process. Call, email, or come in to A106 for information about current schedules, offerings, and registration procedures. 240.629.7962/ESL@frederick.edu

Real American English: Idioms Go to the Movies
Do you sometimes feel confused or frustrated when the English you see on TV or in the movies doesn’t make sense to you? Do you wonder why people are laughing when you didn’t understand that there was a joke? Then this course is perfect for you! This course is designed to help students learn common idioms that consist of phrasal verbs and expressions that can be confusing and frustrating for English language learners. Students will learn and practice real American English by learning useful idioms and expressions that are in a popular American film. Students will improve their English communication skills and watch a great movie too!

Note: These courses are not available for on-line registration. All students must come in to A106 to begin the registration process. Call, email, or come in to A106 for information about current schedules, offerings, and registration procedures. 240.629.7962/ESL@frederick.edu

### Personal Enrichment

#### ARTS

**Introduction to Acting**
Do you dream of the adrenaline rush of stepping onto the stage and becoming someone else for a few precious hours? In this class you will learn the basics of acting through both historical and in-depth exercises. You will start with voice, movement, and characterization. Then move onto improvisation, imagination, emotion, memory and other techniques of acting. You will gain confidence by performing in front of small audience. If you have always wanted to become an actor or actress, this class will give you a starting point.

**Drawing for the Absolute Beginner**
Have you always been interested in drawing, but never really knew how to get started? If so, then this is definitely the course for you! Gain a solid foundation and understanding of the basics to drawing and become the artist you’ve always dreamed you could be! You will gain a solid understanding of the many tools of the trade. You will become intimately familiar with paper types, drawing styles, rendering techniques, and the basic principal of perspective, layout, design, lighting, volume, and space. You will even discover how best to get in touch with your right brain. If you have an interest in learning what it’s like to draw or would love to increase your current knowledge in the field of art and illustrating, then this course aims to fulfill all of your needs. Course revised September 2014

**Classic Drawing**
Students who desire to achieve a high level of skill and excellence in realism, like that of the Old Masters, will thoroughly enjoy developing their technical skills in this course. Geared towards the beginner, the instructor will work closely with each student to assist in the accurate progression of each drawing. After completing one session, students will be able to center a composition, render the objects reasonably in proportion and prospective, and execute the four elements of shading. While still life will be the subject matter and graphite pencils will be the media, students will learn how to begin and complete one large detailed finished drawing. A supply list will be provided to the students during the first class.

**Foundations Of Watercolor**
Have you always enjoyed the appearance of a realistic transparent watercolor but wondered how to achieve it? In this course students will learn through a systematic process how to execute a detailed line drawing, transfer it to the watercolor paper, and practice flat washes with round and flat brushes. In addition, students will learn through discussion and demonstration how to create tints, complementary colors, and the use of color theory. Students can anticipate utilizing numerous practice sheets to gain mastery of techniques to render one monochromatic and one full color painting. A supply list will be given to the students the first class. Students will be inspired and revitalized by attending.

PERSONAL ENRICHMENT

AMERICAN SIGN LANGUAGE

Discover Sign Language
It’s truly amazing that we can communicate just by using our hands! Add different facial expressions, and you have a conversation - the language of deaf people. In this course, you will discover how to use this graceful, expressive language to communicate with deaf people. You will learn by watching videos that demonstrate how to make the signs and how to incorporate facial expressions to communicate in this beautiful language. This course is taught using the best practices of the industry with a minimum of audio support. Throughout, you will be immersed in silence, so you will gain an understanding of the perspective of deaf people and sign language. You will also gain an introduction to the world of deaf culture and explore topics such as lipreading, baby signs, and the career of interpreting. By the end of the course, when you meet a deaf person, you will be ready to sign!

**Speed Spanish II**

Have you ever seen a non-native speaking Spanish fluently? Were you impressed? Would you like to become more conversational and more comfortable in Spanish-speaking situations? Now you can. Our Speed Spanish courses are unlike any other Spanish classes you may have ever taken. You will see words, hear them pronounced properly, and be granted plenty of opportunities to practice your pronunciation. Then, you will learn several clever recipes that you can use to glue the words together into sentences. Enroll in Speed Spanish II, and you will see an immediate improvement in your Spanish fluency from the very first lesson.

**Beginning Conversational French**

This course will teach you how to communicate easily and comfortably with those who speak French. You will learn practical, common phrases that will make your trip to the many French-speaking regions of the world more pleasant. Each lesson introduces a scenario, presented in short dialogues. You will be able to practice and learn both sides of the conversation, so you will easily understand and expect common responses. Every lesson also has cultural tips, which will make you more comfortable in a foreign setting. Since proper pronunciation is important to good communication, this course will help you master the best pronunciations. Simply click on each word to hear it spoken! Every word and sentence is also written out phonetically using sounds that you are already very familiar with from English words. This course has been carefully crafted to ensure you will have no trouble pronouncing French words correctly. This course makes learning French fun and surprisingly easy. You will be pleased with your quick progress, and you will be prepared for your next trip!

Register early. Each course has a maximum number of students that can enroll, and popular courses may fill quickly. Course cancellation decisions due to low enrollment are typically made three business days prior to the course start date.
Instant Italian
This dynamic course will teach you how to express yourself comfortably in Italian. You will learn practical, everyday words and phrases that will make your stay in Italy more enjoyable. You will read, hear, and practice dialogues based on typical situations that you're likely to encounter while staying in Italy. The dialogues and follow-up exercises of each lesson will teach you to communicate in Italian in a wide variety of settings. You will be surprised by how quickly and easily you can learn many useful expressions in Italian! Essential words and phrases are written phonetically by using sounds that are familiar to you from English words. The course audio feature lets you hear the words and phrases spoken aloud with just a click of your mouse. Short exercises are included with each lesson to help you reinforce what you've learned and gauge your progress, making it easy to pinpoint areas that you still need to review. You will be pleased at how quickly this course helps you build your skills, and prepares you for your next adventure in Italia.

Yoga
Yoga is a practice of physical postures, integrated with the breath, to release tension and promote strength and flexibility of body, mind, and emotions. Yoga postures, breathing, and relaxation can alleviate many common problems that leave you feeling tired and drained of energy. Regular practice will: increase your strength, flexibility, and endurance; bring clarity and calmness to your mind and emotions; release muscular tension; help correct many postural problems; make you feel fit and vital; and help you relax. The ultimate benefit is that Yoga awakens a deeper awareness and understanding within you. This is a natural progression that begins with increased bodily awareness. As you become skilled at synchronizing breath and movement, you learn to turn your attention inward while moving. Eventually, you develop the recognition that is possible to stay centered and balanced in any situation.

Introduction to Natural Health and Healing

Would you like to learn more about natural health but don’t know where to start? If so, then this is the course for you! You will discuss the various stages of health and illness, and you will discover that true health means wholeness of the mind, body, and spirit. You will start a personal health journal to evaluate your current lifestyle and observe how your behaviors can affect your health. Explore naturopathy, which seeks ways for the body to heal itself. You will find out about proper breathing techniques that enhance health, and you will learn the value of hydrotherapy, diet, bio-rhythms, and fasting. Examine using the power of the mind for healing the body—discuss brain function tests, visualization, and relaxation therapies. You will see the great power of belief. Then delve into vitamins, minerals, antioxidants, free radicals, and the basic requirements that constitute a healthy diet. After our talk, you will be able to develop menus that improve health. You will also look at herbal healing, aromatherapy, body therapies, massage techniques, osteopathy, chiropractic, Tai Chi, reflexology, yoga, Feng Shui, therapeutic touch, natural remedies for common emergencies, and much more. By the end of this course, you will have begun taking charge of your own health and healing!

Lose Weight and Keep It Off

In this comprehensive course, you will discover how to establish a healthy approach to weight loss and weight maintenance. You will master how to set and achieve weight-loss and weight-maintenance goals that make sense for you. From understanding food composition, portion sizes, and preparation methods, to meal composition and meal timing, you will learn food basics—and beyond! You will discover how to eat out without jeopardizing your weight loss or disappointing your taste buds. Also, discuss the basics of planning and preparing meals at home, and uncover tips and tricks for navigating the social elements of eating. This course will also review how to find exercise and activity that’s enjoyable and helps you meet your weight-loss and weight-maintenance goals. You will also discover how to take exercise to the next level and uncover thought patterns that negatively affect exercise and activity.

JOIN AN ENSEMBLE

Participating in an ensemble is a unique and valuable opportunity. Using and expanding upon techniques learned in private lessons, players of all ages gain a special sense of motivation, camaraderie, and accomplishment while preparing for and then performing in an on-campus community concert.

Introduction to FCC Jazz Workshop
This class is for those who are beginning their exploration of the world of Jazz. Discover the language of jazz improvisation and learn techniques for using jazz harmony and rhythms in an ensemble setting. Students should already be able to read music, play major scales on their instruments, and possess some basic knowledge of music theory application on your instrument. All instrumentalists welcome—any instrument you like to groove on!

MUS133 | 26 hours | $159 fee
INSTRUCTOR: Howard Burns
7612  W 7:45–10:10pm  9/7–12/7*  FCC/F109
*No class 11/23.

Advanced FCC Jazz Workshop
Be part of the advanced FCC jazz workshop. This class is a continuation of beginner jazz workshop. As students will work on more complex songs and harmonic concepts they must be able to read music, play all major and minor scales on their instrument and already have knowledge of music theory including scales, arpeggios and chord symbols used in jazz. Previous experience in jazz ensemble playing is necessary. All instrumentalists welcome—any instrument you like to groove on!

MUS134 | 26 hours | $159 fee
INSTRUCTOR: Anita Thomas
7916  M 5–7pm  9/7–12/7*  FCC/F145

FCC Jazz Ensemble
Join FCC’s Jazz Ensemble and perform the best in big-band jazz. (Some prior experience in ensemble playing necessary.) Guest artists jam with the group and outside engagements bring additional chances to perform.

MUS100 | 32.5 hours | $159 fee
INSTRUCTOR: Howard Burns
7616  M 5–7pm  9/7–12/7*  FCC/F145

FCC Flute Ensemble
An FCC favorite, this ensemble has been producing memorable concerts for over 15 years. This group enjoys playing a variety of styles from classical favorites to jazz and world folk music, incorporating a full range of voices from piccolo to alto and bass flutes. Join us, as we celebrate our flute community. The class is open to both young musicians and adults at intermediate to advanced levels.

MUS 118 | 19.5 hours | $145 fee
INSTRUCTOR: Jennifer Rundlett
7807  W 7:45–9:15pm  9/7–12/7*  FCC/F105
*No class 11/23.

FCC String Ensemble
FCC String Ensemble is for beginning and returning music lovers and will explore music from the 1600’s to present. Participants of all ages and experience levels are welcome to inquire; however, one year of prior study on an instrument is recommended. Participation in this ensemble will strengthen technique in a variety of areas, including bow placement, intonation, rhythm studies, chamber music performance, and accompaniment. The student will also accomplish a basic understanding of music theory and orchestral markings.

MUS128 | 19.5 hours | $145 fee
INSTRUCTOR: Lynn Fleming
5912  Th 7:45–9:15pm  9/8–12/8*  FCC/F105
*No class 11/24.

FCC Handbell Choir
Meet fellow music lovers by experiencing the joys and challenges of Handbell Choir. This group is open to adult and student musicians of all ages. Prior participation in a music ensemble (choir or instrumental group) is required; music reading skills are also required, especially the ability to count and read rhythms. The group will explore several bell and chime techniques through a wide variety of music from different time periods. Performance in on-campus recital and other appearances in the community. Enrollment will be limited to 13 ringers.

MUS132 | 19.5 hours | $145 fee

INSTRUCTOR: Pat Stein
5473 $ 1pm – 4pm 11/5 F130
Introduction to Interior Design
Are you a creative person with an eye for design? If so, this course will show you how to transform plain living spaces into beautiful and functional rooms. Interior design takes training as well as talent, and these lessons will give you the know-how you need to design a room from floor to ceiling. You will delve into color theory, industry trends, spatial arrangements, floor plans, traditional and modern interior design ideas, and other basics. In addition, you will explore a range of careers in interior design and get insider tips for entering this exciting field. Because interior design is constantly evolving, you will also learn about some of the latest trends affecting the industry. You will investigate "green" sustainable design, and you will find out how to modify your designs for people with special needs. As you master design skills step-by-step, you will complete your first project: a fully developed room design complete with spatial layout, lighting, and finish selections. Your new knowledge and hands-on practice will give you the confidence you need to start creating beautiful residential interiors for yourself and others.

You Can Sew
Do not let that sewing machine intimidate you! Sewing is fun and useful! Once you have mastered the basic skills needed to use a sewing machine efficiently, any project you choose to do will be easier! The course starts off with the sewing machine basics, such as how to thread and wind a bobbin. Students will then learn how to sew a variety of seams and stitches, and how to navigate corners and curves, and how to use a simple pattern. In-class projects include a tote bag and pair of pajama pants. These would make wonderful holiday gifts! We will send you a materials list after you have registered.

PERSONAL FINANCE

Math Refresher - Online
This course will show you how to use math to your advantage. Math can be incredibly useful - but only if you understand how and when to apply it in your everyday life. You won’t find any theory or memorization here. The lessons that make up this course are filled with practical exercises and information that you can put to immediate use. You will find out some very interesting things about how calculators work, and then you will discover how best to get a handle on your income and expenses. You will be able to check your paystub, invoices, and bank statements for errors and overcharges, and you will become more skilled at handling money and comparing investment opportunities. You will learn how to calculate percentages, including the proper amount to pay in tips, commissions, taxes, and discounts. You will find out how to calculate interest rates and you will develop a better understanding of mortgages, credit cards, and other types of loans. You will discover a handy method for converting one type of measurement to another, and you will be able to calculate areas correctly so you don’t overspend on your next home improvement project.

PHOTOGRAPHY

Learn to Use Your Digital Camera
Taking pictures should be fun not frustrating, right? Learn to operate your own point-and-shoot camera to take great pictures and learn its various functions. Bring your camera and its manual to class. We will provide a series of lectures and hands-on demos, to help you become the expert at using your own camera. Weekly assignments cover the various functions of your camera and include exposure, archiving, photo manipulation, and more. This is not a computer class.

Intro to Flash Photography
Learn to use flash photography to expand your vision and create striking images. Whether you already have an external flash or thinking of acquiring one soon, this class will teach you what you need to know. By learning Flash Photography you will be able to produce extraordinary photographs under a wide variety of lighting conditions. You will learn the fundamentals of flash photography and gain an understanding of the relationship between flash and ambient light. This class will take the mystery out of all the technical jargon such as Sync, 1st-curtain, 2nd-curtain, ETTL, and High-Speed Mode. Learn how to modify the quantity and quality of light to match your photographic vision. Learn how to calculate flash exposures and use flash in manual and auto modes. Find out what equipment works the best for you for the least amount of money. This is a hands on class. We will take a short lunch break (lunch not included). Bring your camera, manual, battery and flash if you have one.

Introduction to Photoshop CS6
Photoshop is the world’s best-known photo-editing program. Artists, photographers, designers, and hobbyists all rely on Adobe Photoshop for image creation and editing. You will learn how to use Photoshop with detailed, step-by-step instructions that you will have no trouble following—even if you’ve never used a computer graphics program before! And you will have a lot of fun doing it. Photoshop CS6 has a host of impressive new features for photographers, and you will encounter a number of them. This course begins with an introduction to the Photoshop environment. Next, you will learn techniques for creating simple digital paintings (including some brushes that let you create the look of an oil painting from a photo). Then you will be editing your own photographs to get rid of dust and scratches, fix the color, and correct image exposure. You will master techniques for switching the backgrounds on images and removing wrinkles and blemishes from photos, just like they do in magazines. You will also learn about the new content-aware Move tool in CS6 that, like magic, lets you move something on an image while intelligently replacing the “hole” left behind. By the time you finish this fun, hands-on, project-oriented course, you will be well on your way to expressing yourself with the most exciting graphics program ever developed.

Intermediate Photoshop CS6
Photoshop is one of the most amazing software programs ever developed. It’s a fun and creative way to alter photos and prepare them for print or the Web. In this course, you can take your Photoshop skills to the next level by exploring more advanced features in Photoshop that let you easily re-edit projects long after they were originally created (and long after the Photoshop “undo” command has expired). These techniques, called non-destructive editing, let you work faster and reuse parts of images over and over again. If you like scrapbooking or want to make page layouts that you can fill with different graphics, you will learn how to create reusable templates. You will see how to use Smart Objects, so that even if you crop or resize an image. Whether you’re a photographer who wants to use Photoshop to edit photos, a scrapbooker, or an artist, this course will teach you the building blocks you need to unleash your creativity. It’s also a lot of fun!

Macros Photography
The tiny details that are revealed by macro photography will amaze you. Butterfly wings look fuzzy; dandelion seeds become things of beauty. In this class, you will learn about different techniques and tools for creating macro shots using your macro lens. Learn how shallow depth of field affects macro shots. Focus stacking will be addressed. There will be classroom photo sessions, field sessions, and editing in the lab using Photoshop. Students in this class will need a camera with a macro lens and a tripod. A packed lunch is highly recommended.

Secrets of Better Photography
Master your digital camera and learn the secrets behind outstanding photos! Whether you have a digital SLR, a point-and-shoot camera, or something in between, you will learn how to use it the way you want to in this hands-on course! You also have the opportunity to have your lesson assignments critiqued by our knowledgeable teaching team of professional photographers. You will see how to choose the best photographic equipment for you and how to compose images with style. Exposure topics like aperture, shutter speed, metering, and ISO settings will all make sense as we break them down into simple concepts. If you want to work with manual exposure on your digital SLR, we cover that, too! Explore natural and artificial lighting, freezing or blurring motion, portraiture, children’s photography, pet photography, photojournalism, and digital editing options. Secrets of Better Photography is also an excellent class to prepare you for the more advanced class, Travel Photography for the Digital Photographer.

Photographing People With Your Digital Camera

Photographing people can be fun, exciting – and complicated! This course will make taking beautiful pictures of adults, children, and babies simple. Don’t be nervous if you’re new to digital photography, because you will start with the basic principles you need to know in order to become a people photographer. You will discover the best way to shoot faces, fix common close-up problems, and use digital photo editing techniques to retouch your photos and make other improvements. Next, move onto portrait and formal group shots to learn how to organize people, which angles to use, and which to avoid. You will become proficient in action photography, and you will also learn several fun and creative ways to photograph children and babies. You will even gain expertise in filling your photographs with imagery, setting moods, and creating themes. This course will have you well on your way to becoming a skilled people photographer.

Mac, iPhone, and iPad Programming

The fastest-growing software market today involves mobile applications (or Apps). In this course, you will learn to use the free Xcode compiler and the Objective-C programming language to program your own Apps that you can sell through Apple’s App Store, reaching millions of potential customers around the world. You will start with the basic steps to writing any program, then progress to using Xcode—the same compiler that Apple, Microsoft, Adobe, and many other companies use to write programs and applications. Along the way, you will explore examples and perform simple coding exercises to build your confidence using Xcode and Objective-C. Even if you're new to programming or have experience programming a different type of computer, this course will offer the guidance you need to build your own Apps. By the end of this course, you will know how to find your way around Xcode and write Objective-C commands, so you will be ready to start creating your very own Mac, iPhone, or iPad programs!

How to Get Started in Game Development

Whether you want to start your own indie game project in your basement or work with a small creative team or for a large game development studio, this course will prepare you to start developing your own games. You will start by learning the fundamentals of game development and get an overview of game genres, platforms, and audiences. Next, you will learn tools and techniques to help you make better design decisions and achieve greater efficiencies as you develop your own games. You will learn why many games fail and how to ensure your games are positioned for success. During the course, you will gain hands-on experience in many of the game development processes. By the end of the course, you will have the experience and confidence to start developing your own game. Finally, go behind the scenes of the game design industry to see how it started and where it’s headed. You will learn about the various roles in game development and how to pursue a career in the industry. When you complete the course, you will be ready to start developing games right away!

**Introduction to Internet Writing Markets**

The Internet provides unlimited opportunities if you're a writer, whether you just have a few hours a week to blog or want a full-time publishing career or just plan to promote your books or business on the Web. There is no single way to become successful writing for the Web, so this course shows you the hundreds of different choices you have, and helps you set your own goals. In fact, by the end of the course, you will have your very own publishing plan, from the steps to take in developing your writer's platform or brand, to the markets that will help you accomplish your goals. You will learn the secrets of how to be successful in publishing online. That includes things like search skills, website traffic evaluation, identifying your own expertise and gathering it into a CV, research strategies, RSS feeds, online interview tips, crowdfunding large projects, and more. Markets are different on the Internet, so you will take an in-depth look at them too. From paying publications to setting up a passive income earning stream, you will go from the familiar, like online magazines, to the little known, like freelance marketplaces, along with different types of online jobs for writers. Every wondered if it would be better to start a WordPress blog or a Twitter microblog? Whether it's legal to publish fan fiction or not? How you can make some extra money if you also take photos or make videos? This course will answer all your questions about publishing on the Internet. Course revised June 2015

**Mystery Writing**

What makes a mystery? If you consider the books you've read most recently, you may be surprised to discover that many—if not all—are mysteries. From Dan Brown to Dennis Lehane, mysteries are hot items on today's best-seller lists. This course will teach you the techniques you need to know if you want to become a best-selling mystery author. Mystery Writing begins by introducing the four story types and then explains how they relate to mysteries. It then reveals the three-act story structure, which is any story's key to success. Next, it shows you how to propel the action forward to a climax, followed by a catharsis in which your readers feel the release of tension that accompanies a great finish. And you will write a complete scene from your story and learn the internal structure that makes every scene feel right. Finally, you will delve into the special techniques that apply to mysteries, including crime scene description, MacGuffins, and the use of red herrings to misdirect your readers and create suspense. Follow the guidelines taught in this course, and you will be well on your way to writing a successful mystery of your very own!

**Advanced Fiction Writing**

Do you have a manuscript, or parts of a manuscript, and need to know how to polish it for publication? Are you a published author who wants to learn techniques to write more effectively and efficiently? If you answered yes to any of these questions, then Advanced Fiction Writing is for you! In this course, you will explore all the topics a writer needs to create a successful manuscript, including story structure, plot, character, dialogue, setting, suspense, conflict, action, viewpoint, tense, and even how to get published. Each lesson includes an assignment that will help you develop or polish your manuscript. And in the Discussion Area, you will have an opportunity to share your work with classmates to obtain their feedback. Through this step by step process, you will have the tools to turn your story idea into a published book. Join us for the next six weeks, and you will never look at fiction writing the same way again!

S.A.T. Prep - Verbal Review
Prepare for the S.A.T. This review of English skills includes vocabulary building and methods for reading comprehension improvement, as well as test-taking strategies needed for satisfactory performance on the S.A.T. Please bring the latest edition of the Barron’s S.A.T. book to the first class. In order to achieve the best results, practice homework assignments will be given for extra review between sessions. This class will focus on the re-designed S.A.T. which starts March 2016. Maximum enrollment is 5 students.

Study Skills and Test Taking Strategies for High School Students
Studying and a good night’s sleep are only a part of getting good results on an exam. In this class, students will explore different strategies and techniques that will enable them to score well on essay, multiple choice, quantitative/math, true/false or open book. Note-taking tips, how to reduce anxiety, study skills and tips, and last minute topic review (cramping techniques) will be covered. Slow down, breathe deep, and take this class. It is designed to help students learn study skills that will provide them with the necessary skills to be successful in high school and college.

EDP147 | 8 hours | $99 fee
INSTRUCTOR: Chanin Storm
5820 | MW 4pm – 6pm | 9/26–10/5 | L112

Study Skills and Test Taking Strategies for Middle School Students
How to get organized, take good notes and study effectively are just a few of the techniques you will discover in this class that brings test-taking strategies and study skills together in a fun-filled and relaxed atmosphere. Learn methods to keep track of important papers and assignments, figure out how long assignments may take and discover how to break big projects into smaller ones. Slow down, breathe deep and take this class. It will teach you the skills needed to be successful in middle school and beyond.

SCIENCE & MATH

High School Chemistry for Home School Students – Part A

Must be currently taking or have completed Algebra 1. This course will provide an overview of the basics needed to provide depth of understanding in chemistry. The course is divided into nine week trimesters, Parts A, B, and C. Combined, the trimesters are intended to provide the student with a full year of credit in high school chemistry. Each class will meet for three hours per day. Part A will cover the following units: Foundations of Chemistry; Matter, Atoms, Elements & Compounds; The Periodic Table; Organic Chemistry; Acids & Bases. The course will consist of lecture, laboratory work in a chemistry lab equipped with gas jets and a fume hood, class activities and required homework. Students are expected to complete all assignments and be prepared for class each week. Attendance in class is extremely important and it is the student’s responsibility to make up any missed work. Access to a computer outside of class is necessary for online classroom accessibility. Students will receive grades and will be based on the following: Labs and Minilabs 50%, Quizzes and Tests 25%, Classwork and Homework 25%. Required: Lab Apron and Goggles; All students must wear closed toe shoes to class.

AGES 15–17

HSE300 | 27 hours | $212 fee
INSTRUCTOR: Lisa Duckworth
5428 F 9am – 12pm 9/16–11/11 C237

Murder and Mayhem at FCC: Forensic Science to the Rescue

Oh no! There’s been a murder at FCC. Investigate the crime, collect the clues and learn how to solve the case using forensic science. Fingerprints, blood, DNA, tire tracks, hair and fibers and other evidence will be investigated. Don’t let the crime go unsolved.

AGES 10–13

HSE173 | 10 hours | $109 fee
INSTRUCTOR: Lisa Duckworth
5425 F 1pm – 3pm 9/16–10/14 E125

Build a Bridge

Combine engineering and physics in this hands-on class as you learn about the physics of bridge building. Build and test bridges made out of paper, straws, toothpicks, marshmallows, gumdrops, Popsicle sticks and even pasta! How much weight can your bridge creation hold up?

AGES 10–13

HSE174 | 8 hours | $89 fee
INSTRUCTOR: Lisa Duckworth
5426 F 1pm – 3pm 10/21–11/11 E125

High School Chemistry for Home School Students – Part B

Must be currently taking or have completed Algebra 1. This course will provide an overview of the basics needed to provide depth of understanding in chemistry. The course is divided into nine week trimesters, Parts A, B and C. Combined, the trimesters are intended to provide the student with a full year of credit in high school chemistry. Each class will meet for three hours per day. Part B will cover the following units: Chemical Equations & Reactions; Thermochemistry; Chemical Kinetics & Equilibrium; Nuclear Chemistry. The course will consist of lecture, laboratory work in a chemistry lab equipped with gas jets and a fume hood, class activities and required homework. Students are expected to complete all assignments and be prepared for class each week. Attendance in class is extremely important and it is the student’s responsibility to make up any missed work. Access to a computer outside of class is necessary for online classroom accessibility. Students will receive grades and will be based on the following: Labs and Mini-labs 50%, Quizzes and Tests 25%, Classwork and Homework 25%. Required: Lab Apron and Goggles; All students must wear closed toe shoes to class.

AGES 15–17

HSE301 | 27 hours | $212 fee
INSTRUCTOR: Lisa Duckworth
5429 F 9am – 12pm 12/9–2/17* TBA
*No class 12/23, 12/30.

Register early. Each course has a maximum number of students that can enroll, and popular courses may fill quickly. Course cancellation decisions due to low enrollment are typically made three business days prior to the course start date.
KIDS & TEENS ON CAMPUS

PROGRAM GUIDELINES

Emergency Contact Form
Required for all courses and must be completed before a child can participate in a program, this form is completed online as a part of the registration process. If, for any reason a form is not on file for your child, one will be provided at the beginning of the first day of class to be completed and signed by an authorized guardian.

CLASSES: Pick Up/Drop Off Procedures
Students may be signed in and dropped off no more than 10 minutes before class begins. Students must be picked up promptly at the end of class.

Students ages 4 to 12
• Children must be signed in and out from their classroom by an authorized adult.
• The college will only release your child to those listed as “authorized” on the Parental Consent Agreement.

Teen Students age 13 and over
• With a signed Pick-Up Authorization Form on file, teens may sign themselves out.
• Pick-Up Authorization Forms are available by contacting Kidsoncampus@frederick.edu or calling 301.846.2661.
• Without a signed Pick-Up Authorization Form on file, teens must be signed out of class by an authorized adult.

Marketing/Campus Photography
As Frederick Community College is a public institution, students, employees and visitors may be photographed and appear in marketing materials without prior permission. To that degree, children may be photographed or videotaped while at FCC. If you wish to have your child(ren) excluded from these activities, please indicate this request on the KOC/TOC Emergency Contact Form.

KIDS & TEENS ON CAMPUS

Design And Sew Like A Professional
No sewing experience is required in this class where you will learn how to safely and confidently operate a sewing machine and make trendy projects that look like you have been sewing for years! Learn how to creatively use straight stitches while you design and make a one-of-a-kind faux knitted scarf. Try your hand at a creative project where you will learn an interesting twist on how to sew on a patch! You will complete all these projects and perhaps a few more if time permits! Have fun, be creative, and learn something new!

AGES 8–12
YOS249 | 12 hours | $109 fee
INSTRUCTOR: Deborah Parsons
5697 S 9am – 12pm 9/17–10/15* E106
*No class 10/1.

Design and Sew: American Girl Doll Creations
Create a one-of-a-kind ensemble and accessories for your American Girl Doll. Using hand sewing methods as well as sewing machines, each student will make a pillow or blanket plus an outfit for their favorite doll. Previous sewing experience is helpful but not necessary.

AGES 8–12
YOS549 | 12 hours | $109 fee
INSTRUCTOR: Deborah Parsons
5701 S 9am – 12pm 10/22–11/12 E106

One Day Safe Sitter Training with CPR
Good babysitters are always in command and this class will help you gain skills needed to do the job well. This one day condensed curriculum designed for busy schedules includes babysitting business ideas, child care essentials, safety for the sitter, injury management and preventing problem behavior. Students will also learn how to perform infant and child choking rescue and child CPR. A certificate will be awarded at the conclusion of the class. Students should bring a bag lunch.

AGES 12–15
YOS635 | 7 hours | $75 fee
INSTRUCTOR: Debbie Shaw
5703 S 9am – 4pm 10/1 E123
5705 S 9am – 4pm 11/5 E125

Computer Programming – Translating the Code
Students will explore computer programming, learn how to write code and develop an understanding of how popular Apps work as they design fun and functional computer programs. Using animated games and interactive art, they will create and share their very own computer programs.

AGES 8–12
YOS640 | 15 hours | $139 fee
INSTRUCTOR: Michael Moss
5708 S 9am – 12pm 9/17–10/15 C211A
### Advanced Computer Programming – Translating the Code

Step deeper into the world of code and learn how to write your own computer programs. Students will explore programming languages and will work to strengthen their understanding of how coding works. A prerequisite for this class is KOC640 Computer Programming - Translating the Code.

### Video Game Design

Do you love to play video games? Have you ever thought about designing your own game? In this course you will get a chance to work with the premier game engines that the pros use. Video games are an emerging art form that combines writing, cinematography, painting and programming into one medium. Learn how to design fun and efficient game levels as well as techniques for properly pacing a story line for a game. Design any type of game you want, from racing, action and puzzle games to old school side scrolling games. If playing games is not enough for you, then video game design just may be your calling!

LUNCH BUNCH!

Bring Your Own Lunch Bunch
If you are signing up for a morning plus an afternoon class, you are required to sign up for Bring Your Own Lunch Bunch. (If you are signing up for a single class that is scheduled from 8:30 – 4:30, Bring Your Own Lunch Bunch is already included.) Supervised by KOC staff and some fun-loving Kids on Campus assistants, you will have the chance to visit with friends or maybe sit back and relax with a good book. Other activities might include puzzles, games, LEGOS and arts and craft activities. Bring a healthy lunch and a cold drink and please remember, Kids on Campus is NUT FREE! (but crazy, nutty kids are welcome. We do not mean THAT kind of nuts!)

FRIDAY, SEPTEMBER 23, 2016

Crafty Kids
Pipe cleaners, Duct tape, craft sticks and glue - put it all together and what do you have? A feast for the imagination, that's what! This class is all about creative fun, using your imagination and exploring the oh-so-many things you can make out of the multitude of items found in the Kids on Campus craft supply closet! If you love to "craft" this class is for you.

AGES 7–11

KID408 | 3.5 hours | $34 fee

INSTRUCTOR: Debbie Shaw
5478 F 8:30am – 12pm 9/23 E Building

One, Two, Three BLAST OFF!
Can you build a space ship that will carry a crew to Mars? What's the best way to travel through the Milky Way? Using LEGOS and other materials, construct space vehicles, cosmic bodies, solar systems and rocket ships in this hands-on class.

AGES 7–11

KID404 | 3.5 hours | $34 fee

INSTRUCTOR: Ryan Hahn
5470 F 8:30am – 12pm 9/23 E Building

May the Force Be With You
Working in small groups, you will learn about the characters and history of the Star Wars series as you build vehicles and structures using LEGO kits. Which fleet will you command?

AGES 7–11

KID403 | 3.5 hours | $34 fee

INSTRUCTOR: Ryan Hahn
5468 F 1pm – 4:30pm 9/23 E Building

Reduce, Re-use, Recycle and Re-purpose
As Grandma always says, "Don't throw that away!" Bring your own recyclable treasures if you'd like and join us in exploring different ways to re-purpose everyday items for fun and functional use. There will be a small “junkyard” for each student to forage through, as well as plenty of mixed media materials to embellish your new and improved creations.

AGES 7–11

KID260 | 3.5 hours | $34 fee

INSTRUCTOR: Debbie Shaw
5455 F 1pm – 4:30pm 9/23 E Building

Gelli-printing for All Day Fun
Open the door to the wonderful world of printmaking possibilities. Learn how to make extraordinary creative prints using homemade gelatin! Using ink, acrylic paint, organic and inorganic materials, explore fun layering techniques, texture and design layout while creating one-of-kind prints. Sometimes art can be messy, so bring a smock or an apron if you have one!

AGES 7–11

High School Diploma Preparation Classes
Preparing for your high school diploma?
Adults and out-of-school youth 17 or older can get ready to test for a Maryland high school diploma.

Adult Basic Education Classes
Need to build basic skills in reading, writing or math?
The Adult Education Program offers small classes, friendly instructors, and a relaxed atmosphere.

Did you know?
The State of Maryland offers two diploma options for adults and out-of-school youth.

> Pass the GED® exam
Take and pass all four sections of the GED® test – Language Arts, Math, Science, and Social Studies to receive a Maryland high school diploma. More information at: www.gogedgo.org.

> Complete the National External Diploma Program
Earn a traditional high school diploma through NEDP’s innovative approach. If you qualify, you can work from home, the library, or wherever you have a computer. The program is flexible and confidential and can be completed in 6 to 12 months. Use the skills you’ve gained from life and experience to demonstrate your high school level skills. More information at: www.casas.org/nedp

Office located in Building A, Annapolis Hall, Suite 106
Monday - Thursday 8:30am - 8pm
Friday 8:30am - 4:30pm
Basic ESL

FCC’s basic ESL program provides instruction in reading, writing, listening, speaking, grammar, vocabulary, and pronunciation skills. Courses are for students 17 years of age or older who have had little or no English training, and who are NOT enrolled in high school.

Learn more about our ESL programs below

We offer:

- Caring teachers who work hard to make your English language learning successful
- A program of study that meets your needs
- Skill evaluation and testing at the beginning and end of all classes
- Certificates issued upon successful completion of your courses

Most classes are held two times per week for three hours and are offered at a variety of times including day, evening, and Saturday options at multiple locations throughout the county, including:

- Frederick Community College, main campus
- FCC’s Monroe Center on Monroe Avenue
- Frederick High School

New classes begin about every 10 weeks. All Basic ESL classes are free.

Orientation Schedule

Take the first step by attending a free orientation session.

For information about Academic ESL, refer to the college’s credit course catalog or online schedule at frederick.edu.
REGISTER ONLINE

Frederick.edu/QuickEnroll
- Sign In or create a new student profile*
- Browse by category or use the search feature. Click on class titles for descriptions and details.
- Register by clicking "Add to Cart", then "View Cart" and select "Check Out" to submit payment. Two separate emails will then confirm payment has been received and registration is complete.
- Online Classes After registering for an online class, a third communication will arrive (up to 48 hours prior to the class start date) with details and steps to access your online classroom.

Important Notes
- Courses requiring prerequisites and/or program manager approval may not be available for online registration. See individual course details for complete information.
- To pay for classes by cash, check, or money order, please register in person in our new Registration Office in the Conference Center.
  *If you registered for a class since June 2014, an online profile is reserved in your name. Please do not create a new profile and call 301.624.2888 to complete the set-up process. Thank you.

REGISTER IN PERSON

CEWD Registration Office - Conference Center - E Building

New! The Continuing Education & Workforce Development Registration Office is now located in the Conference Center (E-113). Visit us for assistance with online registration and to register in person.

M-Th 8:30 a.m. - 7 p.m. • F 8:30 a.m. - 4:30 p.m.
301.624.2888 • CEInfo@Frederick.edu

Please continue to visit Jefferson Hall (J Building) for student services including Admissions, Counseling & Advising, and Financial Aid. Learn more at frederick.edu (keyword: admissions).

REGISTRATION FEES

Registration Fee - A $5 per-term* registration fee is due at the time of registration. Subject to change, this fee is only refundable when FCC cancels a class or a student drops a class at least one business day prior to class start AND the canceled/dropped course is the only class the student has enrolled in during the designated term.

Out-of-County Fee - Maryland students residing outside of Frederick County are charged an additional $5 per class*.

Out-of-State Fee - Non-Maryland residents are charged an additional $10 per class*.

*Terms are defined as January 1 through June 30, and July 1 through December 31.

REGISTER FOR ONLINE CLASSES

Continuing Education and Workforce Development offers a variety of affordable and convenient education, professional development and job training opportunities via the internet 24 hours a day, seven days a week. Prior to registering for an online course, be sure to review individual course requirements for each class.

Technical Requirements
Internet access, email and Internet Explorer or Mozilla Firefox browser.

TO REGISTER AND ACCESS YOUR CLASS

- Visit frederick.edu/QuickEnroll and scroll to “Online Classes” in the far right column
- Click a subcategory and then a course title for class details
- To register, click “Add to Cart” (first-time users will be prompted to create a new student profile)
- Submit payment (debit or credit card)
- Two separate emails will confirm your payment and registration. An additional confirmation will arrive (up to 48 hours prior to your class) with details and steps to access your online classroom.

Blackboard
The below courses provide instruction through Blackboard, an online learning management system. Access to these classes is provided to registered students 48 hours prior to the class start date.

- AutoCAD: DRF104
- Building Trades: ELC167, ELC168, ELC166, ELC169, HVC121, HVC126, HVC128, HVC127
- Business: SMB114
- Child Care: CHI113, CHI114, CHI131, CHI
- Hospitality: HCT101, HCT102

ADDITIONAL ONLINE COURSES

Students registering for the below online courses will receive an email with information on accessing the online component upon registration, or within 48 hours prior to the class start date.

- Pesticide Use & Safety: CPD381 - CPD390
- Child Care: CHI151 and CHI300-CHI336
- Medical Billing & Coding: CAH244
- Real Estate: REA353 - REA356
REGISTRATION INFORMATION

DROPPING A CLASS

Students who choose to drop a CEWD class will receive a full refund provided that they initiate the drop at least one business day before the beginning date of the class, with the exception of Kids on Campus/Teens on Campus classes which require students to drop two business days prior to class start date. Students electing to drop a class can do so by completing the CEWD Drop/Transfer form available at https://frederick.augusoft.net/Customers/Frederick/files/CEWD_2016_Drop_Transfer_Form.pdf. This form must be submitted to the CEWD Registration Office located in the FCC Conference Center, Building E, by e-mail to CERequest@frederick.edu, or by fax at 301-624-2749. Students may choose to transfer their funds toward an alternate class.

Please note, refunds are determined based on the date a request is received. Exceptions to this policy must be requested in writing to the Vice President of Continuing Education & Workforce Development and are made on a case-by-case basis. Contact us with questions at 301.624.2888.

COURSE REFUND POLICY

If FCC cancels a class, all applicable tuition and fees are refunded to students. If a student wants to withdraw from a class and receive a refund, please see the “Dropping a Class” section. Payments made by credit and debit card are refunded directly to student’s credit or debit card account. Refund for payments made by cash, check, or a money order will be mailed to the student usually within 10 to 14 business days.

Please note, refunds are determined based on the date a request is received. Exceptions to this policy must be requested in writing to the Vice President of Continuing Education & Workforce Development and are made on a case-by-case basis. Contact us with questions at 301.624.2888.

SENIOR CITIZEN STUDENTS

Tuition on select eligible courses is waived for Maryland residents 60 years of age and older. Associated course fees (books and/or supplies) may still apply and are due at the time of registration. Eligible courses are identified by the “SW” icon following course descriptions. Please contact FCC Student Accounts at 301.846.2658 for assistance or additional information.

DISABLED AND RETIRED STUDENTS

Permanently disabled Maryland residents out of the workforce are exempt from payment of tuition for classes designed to assist in securing employment as defined in Section 16-106 Education Article, Annotated Code of Maryland. Eligible individuals may take up to 12 credits per semester when enrolled in a degree or certificate program designed to lead to employment. Otherwise, individuals may enroll in classes equating to 6 credits per semester. To receive a disabled and retired waiver of tuitions, students are required to:

- Provide certification of total and permanent disability from the Social Security Administration, the Railroad Retirement Board, or Federal Office of Personnel Management.
- Submit payment of course fees (required to hold classes).

For additional information and assistance, contact us at 301.846.2480 or visit frederick.edu (keyword: Continuing Education Payment Options).

TUITION PAYMENT PLAN

Students in select Continuing Education & Workforce Development programs (noted below) may enroll in an interest-free Tuition Payment Plan whereby participants authorize FCC to collect a pre-determined monthly payment from a checking account, debit card or credit card. A $25 non-refundable enrollment fee is required to participate.

Tuition Payment Plan Programs include:

- Certified Nursing Assistant (CNA)
- Phlebotomy
- Medical Billing & Coding
- Frontline Leadership
- SHRM-CP and SHRM-SCP Certification Exam Prep
- Home Inspection Pre-Licensure
- Certificate in Web Development
- FastTrac NewVenture
- Commercial Driver’s License - CDL Class B Training
- Personal Trainer
- Dental Assisting
- Sterile Processing
- Veterinary Assistant

For additional information and assistance, contact us at 301.624.2888, by email at CEInfo@frederick.edu, or visit frederick.edu (keyword: Tuition & Fees).
BILLING ARRANGEMENTS

Full payment of tuition and fees or third-party payment documentation must accompany the completed registration form(s). Students are individually responsible for payment of tuition, fees and all other charges. If the college does not receive payment from third parties, students will be billed directly for all charges and are expected to pay.

Employees of businesses that operate within Frederick County are eligible for in-county tuition, regardless of their legal domicile. The employee must provide verification of current employment from the human resources office of the Frederick County business at the time of registration.

COURSE ENROLLMENT – REGISTER EARLY!

Maximum enrollment - Every class has a maximum number of students that may enroll and popular classes fill quickly.

Minimum enrollment - Low enrollment may result in a class cancellation. These decisions are typically made three business days prior to the class start date.

COURSE CHANGES

The college reserves the right to make changes in any course or class due to unforeseen circumstances.

BOOKSTORE
(STUDENT CENTER, ROOM H-117)

Continuing Education textbooks can be purchased a week prior to the class start date.

Monday – Thursday ........................................... 8:30am to 8pm
Friday ............................................................. 8:30am to 1pm

SERVICES FOR STUDENTS WITH DISABILITIES

The college provides support services to maximize independence and encourage the integration of students with disabilities into all areas of college life. The particular needs of each student are considered on an individual basis. Students with disabilities are encouraged to contact the Services for Students with Disabilities office as early as possible after applying for admission. Call 301.846.2408. Reasonable accommodations, based on documentation, are then offered to qualified students for courses and placement testing. Students in need of sign language interpreting services should contact the office two weeks prior to the beginning of classes to ensure services are in place.

Requests for sign language interpreting may be made to the Coordinator for Deaf/Hard of Hearing Services at 301.846.2476 (Voice) or via e-mail at interpreting@frederick.edu.

CONTINUING EDUCATION RECORD

Please contact the Welcome Center in writing to obtain a copy of your noncredit course record. Course records contain a student’s complete noncredit course history as of July 1, 2001. Beginning fall 2004, the record also records whether a CEU-bearing course was successfully completed.

The Continuing Education Certificate is an informal award (does not count towards a degree or academic certificate requirements) offered by Frederick Community College. The certificate is awarded in identified noncredit instructional areas for individual courses or an identified sequence of courses generally totaling 90 or more hours of instruction leading to an occupational objective. Instruction typically consists of noncredit learning experiences but may also include credit coursework.

FAMILY EDUCATIONAL RIGHTS & PRIVACY ACT OF 1974 (FERPA)

FERPA, commonly known as the Buckley Amendment, was issued by the Department of Health, Education and Welfare in the 1976 Federal Register. The regulations were transferred to the Department of Education when it was established and codified in Part 99 of Title 34 of the Code of Federal Regulations.

The purpose of FERPA is to afford certain rights to students concerning their educational records. FERPA applies to all schools that receive funding under most programs administered by the Secretary of Education. Most post-secondary institutions, both public and private, generally receive such funding and must, therefore, comply with FERPA. FERPA applies to all education records maintained by a post-secondary institution, or by any party acting for the institution, which are directly related to the student. These include but are not limited to assessment test scores, academic standing, rosters, class schedule, or any information that would make the student’s identification easily traceable. FCC may release directory information, which includes student’s name, dates of attendance, and enrollment status—see the FCC catalog for a complete list. Students wishing to restrict directory information must contact the Welcome Center (in writing) with their request. Contact the Welcome Center for additional information.

ALTERNATE CALENDARS

FCC continuing education classes are held at several off-campus locations. Each off-campus location is closed on specific dates for a variety of reasons (e.g., Parent-Teacher Night, special holidays, etc.). The first night of class, your instructor will discuss information about any holidays or closings which affect your classes.
CONTINUING EDUCATION UNITS (CEU)

The continuing education unit (CEU) was created to provide a standard unit of measure, quantify continuing adult education and training activities (non-credit), and serve the diversity of providers, activities, and purposes in adult education. One CEU equals ten contact hours of participation in organized continuing education/training experience under responsible, qualified direction and instruction. To receive CEUs you must attend a CEU-eligible class, attend at least 80% of the class, and meet all class requirements.

AGE REQUIREMENT

Students should be at least 16 years of age to enroll in most continuing education courses, except for those courses specifically designated for younger students. Students under the age of 16 who have completed at least the seventh grade may be permitted to enroll on a case-by-case basis. Students will be considered for such admission if they demonstrate the ability to profit from instruction based on a set of specific criteria. For more information, call the counseling office (301.846.2471). Certain programs or courses of study include higher minimum age for participation when the college has determined that age is a factor necessary to the normal operation of the program or activity. Minimum age is used as a measure or approximation of the level of maturity, judgment and social independence needed for successful participation in the program or activity in addition to academic skills. [Authority: 34 CFR 110.12]

Certain programs offered by the Institute for Learning in Retirement are offered as special benefits for seniors, and include a minimum age for participation in the program or activity, as is permitted by federal law. Classes may be opened to other interested individuals if space is available. [Authority: 34 CFR 110.16]
LOCATION KEY

FCC classes are held on the college’s main campus, at the Monroe Center, online and offsite at various locations throughout the county.

Campus Locations
