COURSE OPTIONS | SPRING 2022

FCC is working to increase the number of in-person classes while continuing to comply with public health and safety standards. Classes will be offered using the following learning formats:

● In-Person Courses*
  - The course will meet in an in-person environment.
  - Students are expected to attend all class sessions in person.
  - All College health and safety protocols must be observed while on campus.

■ Online Courses (ONL)
  - Course instruction is entirely online. Students may be required to come to campus, or an approved testing center, for certain assessments as specified in the syllabus.
  - The class does not meet at a scheduled time.
  - Students will meet all expected deadlines and expectations outlined by the instructor.
  - Students complete work on their own time.

● Structured Remote Courses (SR)*
  - Course instruction is entirely online with scheduled class times. Students may be required to come to campus, or an approved testing center, for certain assessments as specified in the syllabus.
  - Scheduled class times will be used for real-time virtual sessions, which may include virtual lectures, group discussion, or other class activities.
  - Real-time virtual sessions occur during scheduled class times, as listed in the schedule and syllabus.
  - Students are required to attend real-time virtual sessions.

▲ Hybrid Courses (HYB)*
  - The course will meet in-person and require online participation as noted in the syllabus.
  - Online participation may mean real-time virtual participation (SR) or asynchronous participation (ONL).
  - Students are expected to participate in all in-person sessions and real-time virtual sessions and meet deadlines and expectations for the course on their own time as noted in the syllabus.
  - All College health and safety protocols must be observed while on campus.

Please contact the CEWD Registration office at CENfo@frederick.edu to answer any questions.

* IMPORTANT NOTE FOR IN-PERSON, STRUCTURED REMOTE (SR), AND HYBRID (HYB) COURSES

When registering for classes, consider the course format, meeting dates and times, and location(s) for in-person participation, as well as requirements for real-time virtual instruction. Students must allow appropriate transition times between classes to account for different meeting requirements and/or locations.
“Wow, you have a great voice!” Have you heard that more times than you can count? Or maybe you listen to your favorite audiobooks, commercials, or cartoon characters and think, “I could do that!” Want to earn income using your talents from the comfort of your home? If so, then you could have what it takes to begin working as a professional Voiceover Artist. Explore the voiceover industry with your instructor, a professional, working voice actor from the voice acting training company, Voices For All, in a one-on-one, personalized, video chat setting. Discover the current trends in the industry and how easy and affordable it can be to learn, set up and work from home. In this one-time, 90-minute, introductory class, you’ll also learn about the different types of voiceovers and the tools you’ll need to find success. Your instructor will record you as you read a real script, then offer you some coaching so you can improve your delivery. Your instructor will take notes on your performance and create a professional voiceover evaluation delivered to you in a follow up call. After the class, you will have the knowledge necessary to help you decide if this is something you’d like to pursue. You owe it to yourself to finally explore the possibilities of this fun and rewarding field! Upon registration you will be contacted by VFA to schedule your class for a day and time of your convenience.

Online • $49

This Open Ended/Structured Remote Course is entirely online. This is an open-ended course meaning the course date and time is scheduled at your convenience. You will be contacted no later than a week from the date you register to arrange a date and time for your one-on-one course.

HAPPY LITTLE TREES

ACR600 Bob Ross Painting

You’ve seen him before. He’s the soft spoken guy who paints happy clouds, mountains, and trees in about 26 television minutes, using big, house painting-type brushes while cooing soothing “you can do it”s to the audience. His Joy of Painting program is the most recognized, most watched TV art show in history. Although Bob Ross is no longer with us, a Bob Ross Certified Instructor will teach you the magic behind painting happy little trees when you recreate one of Bob’s masterpieces in this five-hour class. All materials including brushes, Bob Ross paints, and canvases will be provided. This class will take a lunch break so be sure to bring a packed lunch.

This In-Person Course is taught at a designated on-campus location during a scheduled time.
Choose from five available sections.

SIMPLE STITCHING
HOM166 Start Sewing in a Nutshell

Sewing is a lifelong learning skill, and this class covers the fundamentals so you can operate a sewing machine with confidence. You will learn everything you need to know to get started including selecting the right needle and thread; winding a bobbin; threading a machine; stitch settings; tension adjustments; trouble shooting common problems; and best practices. A basic sewing machine will be provided for you to use in this class, and you will be able to apply what you learn to any sewing machine that you own. This class will prepare you to make your own projects whether you like to craft, make a quilt, sew garments, or create home décor projects. All supplies will be provided.

February 1
Tuesday • 6:00 - 8:00 p.m. • Conference Center/E138 • $22

This In-Person Course is taught at a designated on-campus location during a scheduled time.
Don’t know how to knit or crochet? Learn how to make an upscale boutique scarf with a sewing machine. You will learn how wash away stabilizers can help you successfully sew yarn together to make a beautiful scarf. Bring your own yarn, even the ones that are almost too difficult to knit. This project is incredibly easy and little to no sewing experience is required as this project is very forgiving. A basic sewing machine will be provided for you to use in class, and you will be able to apply what you learn to any sewing machine that you own.

All levels of skill are welcome but the student should know the fundamentals of how to use a sewing machine. Students are required to bring the following: 4-5 skeins of yarn that are suitable for knitting or crocheting (nothing excessively thick) and one spool of decorative threads to match the scarf.
PERFECT FOLDS

HOM102 Iris Paper Folding

Iris Paper Folding is a wonderful technique that looks difficult but is fairly easy to master. It makes gorgeous greetings cards and can be incorporated into scrapbooking and other crafts. All materials are included in the course fee and directions are provided to you so you can create additional projects on your own.

VALENTINES (SR) | February 7 | Monday • 1:30 - 2:30 p.m. • Online • $29

Students will need to pick up the Paper Folding kit from FCC Main Campus. The kit can be picked up starting two weeks before the start of class. Students will be emailed more information as the date gets closer.

This Structured Remote (SR) Course is entirely online. The course meets as a real-time online session during the scheduled class time. This course is offered in an online format only. Students must be able to access the course from your own computer/tablet using a link that will be emailed at least one business day prior to the course start. Only students who have paid the course fee and are officially on the class roster, may join the online class session.

We no longer live in a time when we can be totally self-sufficient, we can only be “practically” self-sufficient and sustainable. This multi course series is designed to prepare a family to “practically” provide sufficient food from a medium sized suburban home garden, a not-for-profit homestead, or a small farm. The series includes elements of composting, food preservation, caring for small animals, reducing energy consumption, and living a lifestyle in a more responsible way. The single topics will address many of the questions and issues you may have in pursuing such a lifestyle.

Choose from seven available sessions.

IN A SNAP
PHO122 Get the Best From Your Digital Camera

In this class we will cover the fundamentals of how your camera works. We’ll abandon the auto & program modes and learn how the three major functions (aperture, shutter speed and ISO settings) work. Particular attention will be given to how they influence one another and how you can determine which one is most important for getting the picture you want. We will review secondary level settings such as resolution, color space, metering modes, white balance and more. You’ll also learn about techniques and accessories that can help you produce even better photos. Students should review their camera’s user manual prior to class and familiarize themselves with how to adjust settings since camera functions may vary between brands.

Students complete each of three sessions.

This course illustrates how visible elements like composition or the effects of weather, the time of day, or your point of view can strengthen your photos. Ways your images can benefit from subjective elements like humor, mystery, or surprise will be explained. The first class ends with a look at high-quality images and a discussion by students on what elements may have contributed to the success of those photos. Later, students will submit photos that demonstrate the application of these elements and obtain a professional critique. The focus of this course is on capturing images not on processing them.

Students complete each of two sessions.

PHOTO PRO

PHO126 Introduction to Editing Your Photos without Adobe Software (SR)

Instructor: Howard Clark

You've got a great camera, and you know how to use it. Still, many of your photos do not measure up to your expectations. What's the problem and how can you fix it? Often, the problem is that we do not photograph under ideal conditions, and the images suffer. The lighting may have been flat and the image lacks contrast. Something in the foreground needs to be removed. The horizon is tilted or cuts the picture in half. Oops, the picture is too dark. All of these problems and many more can be fixed with simple editing. This course will show you how it's done.
