Campus Solutions 9.2 for Students

Welcome to Campus Solutions 9.2, FCC’s newest version of the PeopleSoft Student Information System. All the functions you’re familiar with are still here, but with a fresh new look and feel that makes it easy to navigate through the database. In addition, the new Fluid User Interface is designed to work with mobile devices and adapts the layout for a better user experience. To get you started, this guide introduces the new navigation features you will use in CS9.2: Homepage, Banner, Tiles, and NavBar.

Logging In
In the upper right-hand corner of the FCC website, click on myFCC to access the MyFCC Student Portal or use https://myfcc.frederick.edu/portal.aspx. Click on the PeopleSoft (Student Information System) box and log in using your current Username and Password.

IMPORTANT: Prior to logging in for the first time, the browsers you use need to have their cache and cookies cleared. Click here for instructions on how to do this.

Homepages
The new landing homepage is an example of a PeopleSoft Fluid page, a responsive user interface that makes it easy to use CS9.2 from a phone, tablet, laptop or desktop. The Student Homepage will allow you to navigate the system in an easy, familiar layout.

Banner
A menu bar, known as the banner, is at the top of the homepage. The banner includes the name of the Homepage as well as the following menu buttons:

Home – click to return to your Homepage

Search – do a global search to find a function

Action List – click to see a list of actions for the current window, including Sign Out
Navigation – the NavBar slides open from the side and is used along with Tiles to navigate.

**Recent Places** will show you the last five pages you visited.

**My Favorites** allows you to save your own list of favorite places in CS9.2.

**Navigator** provides a fluid version of the classic menu:

- Self Service
- Reporting Tools
- PeopleTools
- Change My FCC Password
- My Preferences
- My Dictionary

**Classic Home** will take you to the familiar left-hand Main Menu from PS 9.0.

**Tiles**

Clicking on a tile will display a navigation menu on the left side of the screen allowing you to access all the functions under that tile. Here’s a quick overview of each tile on the Student Homepage:

**Help**

The Help tile provides access to the Navigation Guide to assist you through the transition to CS9.2.
Student Center
If you want to use Student Center the way you always have, access it from the Student Center tile. All the familiar student information is still available in the same format. Student Center is not mobile responsive (meaning, it will display but it won’t size to your device). When accessing your information using a phone or tablet, you will want to use the new fluid tiles below whenever possible.

The How to use your Student Center tutorial (known on campus as the Purple Card) is still available …just click on its link in the FCC Sites box on the right side of your Student Center.

Tasks
The Task tile is used to communicate information about your account such as an academic hold for registration or a financial hold due to non-payment. Financial Aid and other offices also use it to inform students of actions they need to complete. The Task tile displays on your Homepage even if you do not have tasks to do, but the menu items you see below (To Do List, Holds, Completed Agreements) do not display unless tasks have been assigned to you.

Academic Records
The Academic Records tile gives you access to your course history, grades, and unofficial transcript. (Note: The Official Transcript Request is located under the Student Center Tile in the Academics section; just click on My Academics.)

Academic Records opens on your My Academic Requirements page *(it can take a couple seconds to load)*, which outlines courses needed in your major and tracks your progress towards completion. It includes a link to the major’s website for curriculum information and a link to ARTSYS for course requirements at Maryland transfer colleges and universities. Simply click the Expand All button to get started.
Manage Classes
Use this tile to find and enroll into classes (start by clicking on Class Search and Enroll). In addition, you can view your current classes and weekly schedule.

Class Search
This tile houses the same Class Search function that is in the Manage Classes tile; it is on the Student Homepage as a separate tile to provide quick access when looking up classes. It is accessible from phones and tablets, but does not automatically resize the way other fluid tiles do. The fluid version of this tile will be available at a future date.

Financial Account
This tile shows any payments due along with payment history. It also includes other services such as enrolling into the payment plan or viewing tax statements such as the 1089-T.

Financial Aid
Students receiving Financial Aid can accept or decline their awards and review Financial Aid Summaries.
Profile
Using this tile, students can view their personal information.

Mobile Navigation
When using CS9.2 on a mobile device, the banner and its menu options reduce in size with the Action List remaining available. The tiles will also rearrange and size to your device, but you will have the same access.

Homepage Selector
Some students have an additional role on campus (Work Study Student, staff, or faculty member). Each role has a different Homepage with tiles and navigation specific to the functions of that role. To navigate between Homepages, use the center drop-down menu on the banner, called the Homepage Selector. (Note: the Staff Homepage is delivered by Oracle as My Homepage.)
