Frederick Community College
Dear Lifelong Learner,

We hope this new year has brought you new hope, energy, and reflection. At FCC, a new year means a plethora of new opportunities for all our community members.

If you’re looking for new travel and learning experiences this year, join ILR this spring. You’re sure to find a variety of opportunities to challenge, engage, and inspire you.

It’s not hard to get lost dreaming about a trip to Greece – with its rich history and culture and breathtaking mountains and coastline. Why not join us as we travel together to the popular peninsula in October? Before our trip, we’ll take classes to introduce us to everything from early Greek democracy to Greek wine. It will also be a good time to get to know instructor Marcy Gouge who will serve as the trip leader. Marcy has been an active traveler for 20 years and is a expert on Greece after previously spending a month there and writing about her experiences for the Washington Post. She maintains a travel blog (www.inspiredsolotravel.com) and has led trips specifically for travelers 55 years and older.

We all know you don’t have to leave the country, much less the region, to enjoy new and rich learning experiences. Other ILR Learning on Location offerings this spring include trips to the National Cathedral and the quirky O St. Mansion in D.C., a walking Antietam Series with famed historian Dennis Frye, and a visit to Ladew Topiary Gardens in Monkton, MD with FCC faculty member Christine Rai.

If classroom learning experiences are more your style, you’ll find plenty of options for that as well this spring. Be an armchair traveler through these history classes and more:

- **Ireland: Small Island, Big History,** taught by Ernie O’Roark
- **History of the Middle East Part I & II,** taught by Linda Funsch
- **The American West, 1864-1890,** taught by Roger Swartz
- **Secrets of Allegheny County,** taught by Jim Rada

Wherever your interests lie, we’re confident ILR has something for you. Join our ILR community of active learners who support each other as we follow our interests, gain knowledge, and find new passions in all areas of life.

Sincerely,

**NEW** ILR592 World Religion Series:
Scriptural Texts of the World’s Major Religions
5 sessions, 10 hours

Most religious traditions in the West have a very long-standing practice of writing, studying, and meditating on written scriptures. Judaism, Christianity and Islam have deep commitments to the role of authoritative texts in revealing who the Divine is and what ultimate reality communicates and requires of their respective adherents. In what we could call the East, Asia, and Southeast Asia, there are many written scriptures in use but often their use and function are very different from the West. So what are the official written scriptures, how did they come about, what role do they play in the lives of those who profess faith in them, and what is the wisdom they offer to both adherents and non-believers? We’ll examine five world religions in this course including Judaism, Christianity, Islam, Indigenous Traditions, and Taoism.

**Instructor:** Rev. Dr. Tim Dismeyer is retired clergy and current adjunct faculty in world religions, with 10 years of field experience with the Ecumenical Institute: Chicago, 20 years of parish service in Maryland and Washington, D.C. and 15 years of involvement in interfaith dialogue. His lively, open-minded and inquisitive approach to religion and spirituality continues to inspire ILR students.

PHO110 Photos in the Field
1 session, 5 hours

Although you may have walked a location numerous times, you'll suddenly notice new details about your surroundings when you're on a photo-walk with a camera (or phone) in your hand. In this class, we'll walk together first, finding patterns, textures, reflections, shadows, architectural details, and more. We will then split up into small groups to finish the walk and meet back at the classroom after lunch (on your own). You'll view your photos on the computer, select a few favorites, and watch a slide show of what your fellow photo-walkers captured. You'll be amazed at the variety of subjects that everyone found! The location for each walk will be determined by the instructor about a week before the scheduled walk, but might include downtown Frederick, a park, an Audubon sanctuary, or a battlefield. An email will be sent out one week prior to indicate meet up location. Any type of camera is suitable for this walk, including phone cameras. Students are responsible for providing their own transportation.

ILR590 Living Beautifully with Uncertainty and Change
4 sessions, 8 hours

We live in difficult times with uncertainty. Why shouldn't we cling to familiar patterns and habits if they provide us some degree of certainty? Because, as Pema Chodron teaches, that kind of fear-based clinging keeps us from the infinitely more satisfying experience of being completely alive. The teachings presented in this course, known as the three commitments, which are based on the original teachings of the Buddha, provide a path to enter more fully into one's life through meditation exercises. The true purpose of meditation is to be present in one's life more fully, being present on the dot rather than being riveted according to one's hopes and fears. It is about being open to whatever arises in one's life. It is only by fully living in the present that one can truly live one's life. Each week during the class students will have the opportunity to introduce a new commitment in their life. Meditation practice between classes is highly encouraged.

Instructor: Dr. Jerry Webster presently serves as the Shastri, or head teacher, with the Shambhala Buddhist Meditation Center in Washington, D.C. He obtained his Ph.D. in Curriculum and Instruction from the University of Maryland and has taught literature there and multiculturalism for Montgomery County Public Schools. Dr. Webster’s 40 years of teaching experience began with the Peace Corps in Afghanistan. He currently teaches this course and others at Johns Hopkins University.

**ILR348 History of the Modern Middle East – Part I**

5 sessions, 10 hours

The first of this two-part course introduces students to the history and culture of the modern Middle East from the dawn of Islam in the 7th century to the eve of World War I in the early 20th century. Participants will come to appreciate the diversity of a region that is often dismissed as monolithic by examining both contrasts in the physical landscape and distribution of resources as well as the intricate mosaic of ethnicities, religions, and languages. Part I will trace the rise of Islam and its impact on the peoples and cultures of the Middle East, including an unprecedented expansion that resulted in a multicultural and intellectually robust empire spanning three continents. We will explore the rise and fall of the Ottoman Empire and Safavid Persia and examine the legacies of successive incursions from the West, beginning with the European Crusades and continuing under the imperial banners of Britain and France. This series will end with an exploration of competing 19th and 20th century nationalism, leading to fallen empires, broken promises, and current hostilities.

**ILR349 History of the Modern Middle East – Part II**

5 sessions, 10 hours

Our journey through the history and culture of the modern Middle East resumes at the end of the First World War. The collapse of the Ottoman Empire and the partitioning of the region into European spheres of influence will provide historic context for many current conflicts. From vague post-war treaties to the creation of new states to British-mandated Palestine, the seeds of discontent, experienced today, were sown. Participants will trace the emergence of the United States as a political force in the Middle East, the rise of Arab nationalism, the sequence of Arab-Israeli conflicts/treaties/and accords, the oil crisis of the 70’s, and the return to political Islam in its many manifestations. The development and modernization of the Persian Gulf states, sub-regional schisms within the Gulf Cooperation Council, the competition for hegemony between Iran and Saudi Arabia, the return of Russian influence, and the legacy of U.S. intervention in Iraq and Afghanistan are among the topics to be explored in an effort to better understand this fascinating, if volatile, region.

Improve Your Posture with the Feldenkrais Method®

Everyone wants good posture, but how do we achieve it? The conventional directives like “sit up straight”, “shoulders back and down”, “chest high and chin up” add layer upon layer of tension to a system that already knows how to be upright. In this Feldenkrais® series you will be guided through developmental movement patterns that you did as an infant and experience how swiftly your system can spontaneously re-align for being upright with pleasure and ease. Participants must be able to lie on a mat. This class requires the use of a special mat that allows for sliding (no yoga mats). If participants do not own the proper mat, they can purchase one from the FCC bookstore.

**Instructor:** Hannah Vo-Dinh is a Guild Certified Feldenkrais Practitioner, having completed 4 years of training in the Feldenkrais Method®. She has taught classes at All Saints’ Episcopal, Unitarian Universalist Congregation of Frederick, Common Market and the Frederick County Public Libraries. In addition, she organized the Frederick Feldenkrais Festivals, and has been a guest instructor at the Baltimore and DC Feldenkrais festivals. She is the owner of Mind Body Sense, LLC and works privately with clients to improve posture, balance and mobility.
